FOREWORD

The Office of the Auditor General (OAG) as a body corporate has the statutory function to conduct financial, Value for Money, specialized, forensic investigations, and other audits as provided for by the National Audit Act, 2008. This guarantees that the office provides independent assurance to Parliament concerning issues of accountability, transparency and probity in the public finances. Relatedly the statutory function enables the OAG to determine how economically, efficiently, and effectively public bodies have used the resources given to them, in a way that satisfies Parliament and the citizens of Uganda.

In line with our vision 'A Model Supreme Audit Institution that adds value to society', it is our utmost desire to present quality reports to Parliament, to facilitate oversight and promote accountability during the 2020-2025 Strategic period.

I am pleased to introduce the Office of the Auditor General's fourth Strategic Plan 2020-2025 which covers five (5) financial years from July 2020 to June 2025. This Plan builds on the achievements of the earlier Corporate Plan 2016-2021.

In the effort to align the the 2016-2021 Strategic Plan to the National Development Plan III, there was a reduction of the implementation period which meant that all targets could not be achieved. The unachieved targets have now been moved to the 2020-2025 Strategic Plan.

This Strategic Plan reflects the office's ambition to deliver audits that add value to society in line with ISSAI 12 which supports the Value and benefits of Supreme Audit Institutions. Our focus for the next five years is to enhance organizational performance for impactful audits which will make a difference to the lives of citizens.

Our audit orientation in this strategic plan is to enhance our capacity, improve audit systems and support structures, and improve audit value addition in providing service delivery for the citizenry.

To successfully implement the new strategic plan, which is aligned to National Development Plan III, OAG will rely on strong leadership, staff commitment and effective utilization of the Management Information System.

This strategic plan will be effectively monitored through our monitoring and evaluation function during the implementation period.

John F. S. Muwanga

AUDITOR GENERAL

EXECUTIVE SUMMARY

The Office of the Auditor General (OAG) is a body corporate established by the National Audit Act 2008 and is headed by the Auditor General appointed under Article 163(1) of the 1995 Constitution of the Republic of Uganda as amended. Article 163(3) of the Constitution of the Republic of Uganda and Sections 13 to 18 of the National Audit Act 2008, mandate the Auditor General to audit and report to Parliament on the accounts of all public offices, including the courts, central and Local government administrations, universities and public institutions of like nature, and any public corporations or other bodies established by an Act of Parliament.

The OAG strategic plan 2020-2025 was developed in compliance with the National Development Plan III (NDP III) and sets out the strategic direction to enable the Office to pursue its vision of being "A Model Supreme Audit Institution that adds value to society" and its mission "To provide our stakeholders with independent audit results that promote good governance for better service delivery." The strategic plan presents the aspirations to achieve enhanced organisational/institutional performance and professionalism.

This plan is designed to build upon the OAG's success realised from the Corporate strategy 2016-2021 which includes: executing 9,947 audits with improved quality from July 2016 to December 2019; strengthening collaborations and partnerships with stakeholders; and enhancing operational independence among others. It is worth noting that the corporate strategy 2016-2021 was reduced by one year to align with the National planning timelines. Pending activities from the corporate strategy 2016-2021 have been rolled over into this strategic plan.

The development of this strategic plan was influenced by the Sustainable Development Goals, NDP III priorities, the Office's internal performance assessment, and feedback from key stakeholders. To achieve office – wide congruence; this strategic plan has one goal, "Enhanced organizational performance for impactful audits". This will be achieved through two strategic objectives 1- Enhance the relevance of audits for improved public transparency, accountability, and service delivery, and 2- Enhance institutional capacity to effectively and efficiently deliver the OAG's mandate. Specific objectives, interventions, and activities have been developed to facilitate the achievement of these strategic objectives.

This strategic plan intends to realize high impact audits that will enhance service delivery for the betterment of society as well as improving stakeholder satisfaction and the Office's influence in the wider INTOSAI community. This strategy will be financed by the Government of Uganda (GoU) and Development Partners.

1.0 INTRODUCTION

1.1. Overview of the Strategic Plan 2020 – 2025

The National Planning Authority Regulations 2018 (Section 18(1)) require all MDAs to prepare Strategic Plans in line with respective sector development plans and the medium term national development plan. The Office of the Auditor General developed a new strategic plan for the period 2020 – 2025 in line with the NDP III and the new Programmatic Approach to implementation of government activities/projects. The OAG Strategic Plan 2020 – 2025 is the fifth of its kind to be implemented by the office. Of the four previous strategic plans, three were implemented during/after enactment of the NAA 2008. These covered the periods of; 2006 -2011, 2011-16 and 2016-2021.

This strategic plan was developed through a consultative process, by a Taskforce comprising staff from across the office. This process was supported by GIZ.

In formulation of this Strategic Plan, the office made reference to the provisions of Uganda Vision 2040 as well as other Overarching Policy frameworks in consideration of the wider regional and international development planning context. These include: Agenda 2030 and the Sustainable Development Goals; Africa Agenda 2063; and the EAC Vision 2050.

The overall purpose of this 5 – year plan is to provide a comprehensive strategic direction that enables the Office of the Auditor General to meet the obligations of its mandate successfully and in line with the Vision, Mission, OAG strategic priorities and the NDP III while demonstrating sustainable value and relevance to the citizens. The Strategic Plan also sets out to provide a point of reference as the office navigates a constantly evolving operating environment.

The National Goal spelt out in the NDP III is “To increase average household incomes and improve the quality of life of all Ugandans.” In conceptualizing a new Strategic direction to propel the office towards making a tangible contribution to the overall goal of the NDP III, the Office reviewed and updated its vision, Mission statement and Core values. The Plan therefore, is anchored on a new long term outlook which reflects the ambition of the office towards producing high quality audits effectively and efficiently with a view to delivering sustainable outcomes in public sector governance.

This Plan consists of one overall goal and two strategic objectives that have been articulated to guide the office in enhancing institutional capacity to produce audits that add value to society. The Plan is further cascaded down into 7 specific objectives and 27 broad interventions.

The new plan follows the last Corporate Strategy 2016 – 2021 whose implementation span was reduced by one year for purposes of alignment to the National development planning timelines and implementation horizon. In the process of aligning the Strategic Plan with the National Priorities laid out in the NDP III and PIAPs, key interventions from the previous strategic period that are still relevant were rolled over and included as undertakings in this Plan. The new Strategic Plan covers the period July 2020 – June 2025.

1.2. Background and Legal framework

The Office of the Auditor General (OAG) is the Supreme Audit Institution (SAI) of Uganda. Following the enactment of the National Audit Act, 2008, it became a Corporate body. The SAI is headed by the Auditor General appointed by the President with the approval of Parliament under Article 163(1) of the Constitution of the Republic of Uganda 1995, as amended.

The Auditor General's mandate under Article 163(3) of the Constitution of the Republic of Uganda, 1995 as amended and amplified by Sections 13(1) of the National Audit Act (NAA) 2008, is to audit and report on the Public Accounts of Uganda and all public offices including the courts, the central and local Government Administrations, Universities and Public Institutions of like nature, and any Public Corporations or other bodies established by an Act of Parliament.

In addition, Article 163(3)(b) of the Constitution requires the Auditor General to conduct financial and value for money audits in respect to any project involving public funds, while Article 163(4) requires him or her to submit to Parliament a report of the accounts audited by him or her for the financial year immediately preceding and audits undertaken. Article 154(3) requires the Auditor General to approve the withdrawal of funds from the consolidated fund as prescribed by Parliament.

Furthermore, Section 19(2) of the NAA, 2008 as amended by Section 82(4), of the Public Finance Management Act (PFMA) 2015, requires the Auditor General to audit and report to Parliament within six (6) months after the end of the financial year.

The functions and powers of the Auditor General

The functions and powers of the Auditor General as specified in Part III of the National Audit Act 2008 and the Public Financial Management Act 2015 include:

1. Approve withdrawal of funds from the Consolidated Fund.
2. Audit and report on the public accounts of Uganda and all public offices, including;
 - a. Audit of accounts of the central government.
 - b. Audit of accounts of local government councils and administrative units.
 - c. Audit of accounts of public organisations.
 - d. Audit of public monies in private organisations and bodies.
 - e. Certification and report on the audit.
 - f. Refer to the appropriate committee of Parliament any non-compliance, deficiency and none attainment of value for money.
 - g. Conduct Value for Money audits.
 - h. Conduct special audits and investigations
 - i. Engage private auditors to assist him or her in the performance of his or her functions.
 - j. Recommend to Parliament that a person in default or responsible for any loss or deficiency established in the course of audit show cause why he or she should not be surcharged with the amount.
 - k. Make recommendations to the Minister of Finance, Planning and Economic Development (MoFPED) to minimize unproductive expenditure and maximize revenues, as well as averting any loss.
 - l. Grant warrants for the withdrawal of funds from the Petroleum Fund.

1.3. Geographical Coverage of the Office of the Auditor General

The headquarters of the OAG are located at Audit House, Plot 2C Apollo Kagwa road, Kampala and it also accommodates Kampala branch office. Other branch offices are located in Gulu, Fort portal, Mbarara, Masaka, Mbale, Soroti, Jinja, Arua, Kampala, Hoima and Moroto.

1.4. Organisational structure:

The Office structure provides for two divisions namely Audit and Corporate Services Divisions. The Audit Division is comprised of five directorates namely: Central Government One; Central Government Two; Local Authorities; Value for Money and Specialised Audits; Forensic Investigations and Information Technology Audits.

The Corporate Services division consists of Corporate Support and Technical Support Directorates.

Refer to the detailed organisational structure in Annex 2.

1.5 OAG value addition process (OAG Business Model)

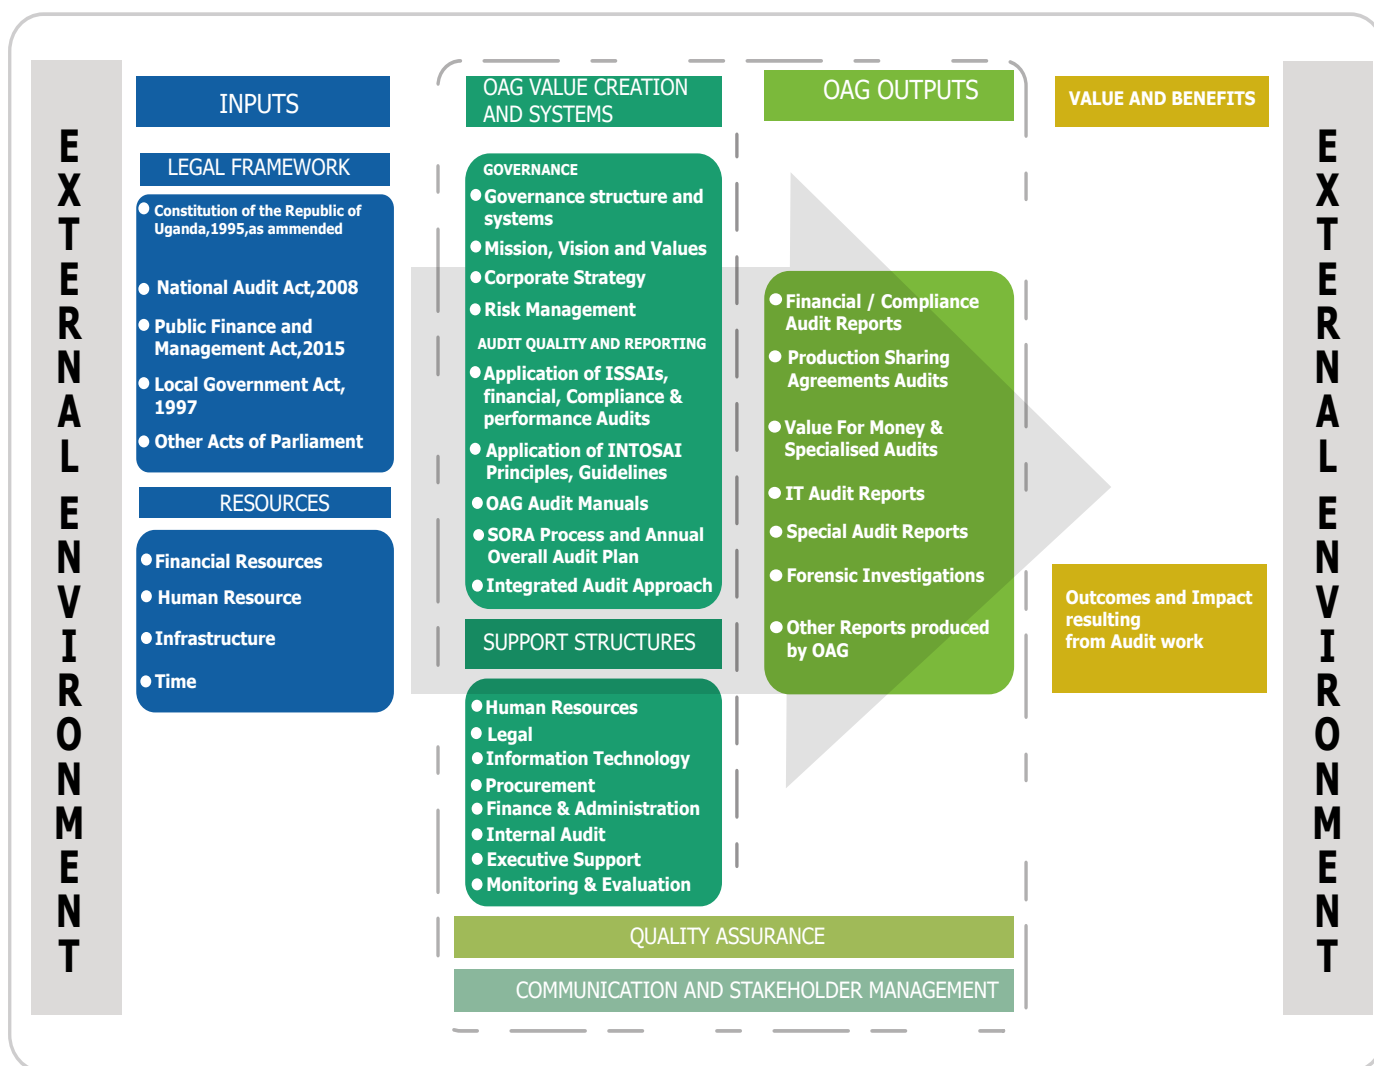

Figure 1: OAG Business model

The OAG business model is defined by the institutional legal framework, organisational systems, and processes, outputs, as well as resultant value and benefits to society. The Office undertakes audits aimed at adding value by improving accountability, transparency, and good governance in Government service delivery processes and thus contributing to the enhancement of societal livelihood.

Our audit processes follow applicable International Standards of Supreme Audit Institutions (ISSAIs) and internally developed guidelines. In line with her mandate, the Office undertakes financial, compliance, value for money, specialised and information technology audits, as well as forensic investigations and special audits upon request by stakeholders.

In this process, consultations with stakeholders are critical to identifying risks and areas of interest at the planning stage. Entry meetings are held to discuss the Audit plan with the clients, audits are executed and exit meetings are held to discuss the findings with management to ensure; objectivity and fair hearing, understanding of audit issues raised, and recommendations thereof. As part of reporting for financial and compliance audits, final management letters and reports with the opinion of the Auditor General are issued to those charged with management. Final reports are also issued for other types of audits to those charged with governance and other predetermined stakeholders.

Accountability and Reporting

The Office plays a vital role in the National Accountability Value Chain in providing assurance on the use of funds appropriated by Parliament and management of other resources by the Executive in the delivery of public services

An illustration of the accountability cycle, which shows Auditor General's relationship with Parliament and the Executive.

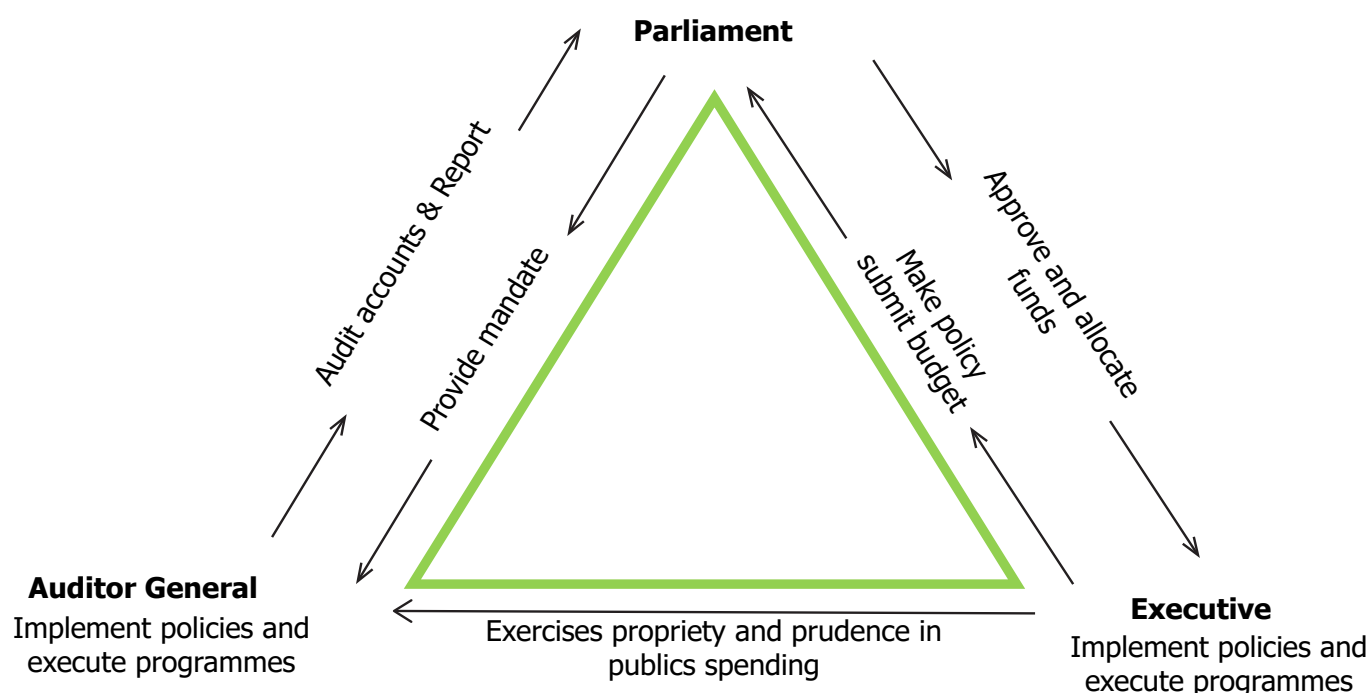

Figure 2: Accountability cycle

As illustrated above, Parliament provides the mandate and discusses the Auditor General's report in executing its oversight role, whereas the Executive provides resources (budget) to the Auditor General and in turn, the Auditor General provides audit assurance on management of resources.

The Accountability value chain as provided for by various pieces of legislation has four steps namely: Planning and Budgeting, Implementation, Audit and Oversight, and Follow-up of Parliament's recommendations to the executive through the audit of Treasury Memoranda.

An illustration of the value chain in the accountability cycle.

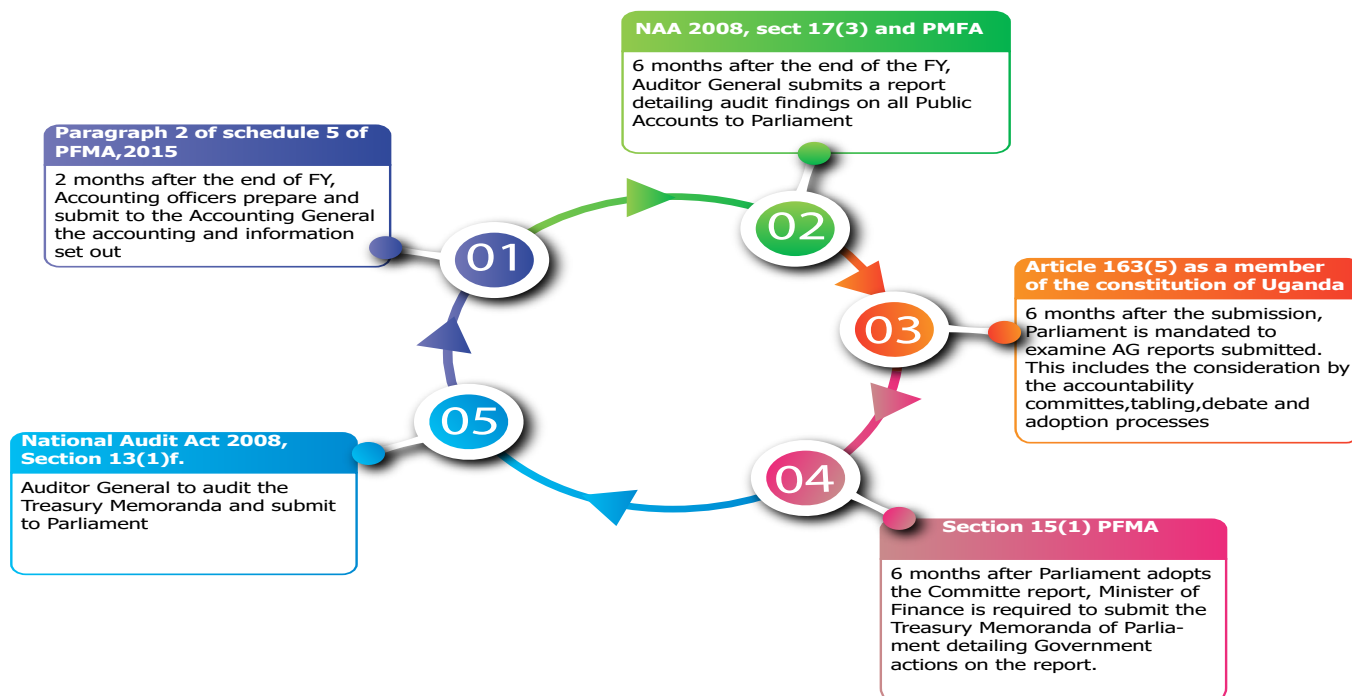

Figure 3: Value chain in the Accountability cycle

1.6. Strategic planning process for the period 2020-2025

i. Purpose of the Strategic Plan

This Strategic plan is one of the core policy documents that define the strategic direction of the OAG and sets performance benchmarks for five years from Financial Year (FY) 2020/21 to FY 2024/25. It defines the goal, objectives and structures to deliver our obligations and responsibilities under the National Development Plan (NDP III) and the Constitution of the Republic of Uganda 1995 as amended. Our strategic objectives, interventions, and activities have been annualised to ease implementation and monitoring.

ii. Process of developing the Strategic Plan

A task force comprising of 14 members of the OAG supported by representatives from the National Planning Authority and Office of the Prime Minister developed this plan. The process included a review of the Legal framework, 2016-2021 Corporate Strategy 3 and a half year evaluation report, 2019 Institutional Capacity Building Self-assessment report, Institution quality assurance and audit reports, and the 2017 Supreme Audit Institutions performance measurement framework report. The process also involved consultation with Stakeholders, OAG leadership and Staff, Development Partners, Parliament, Civil Society and Media among others.

A chart showing the phased approach adopted in developing this Strategic Plan.

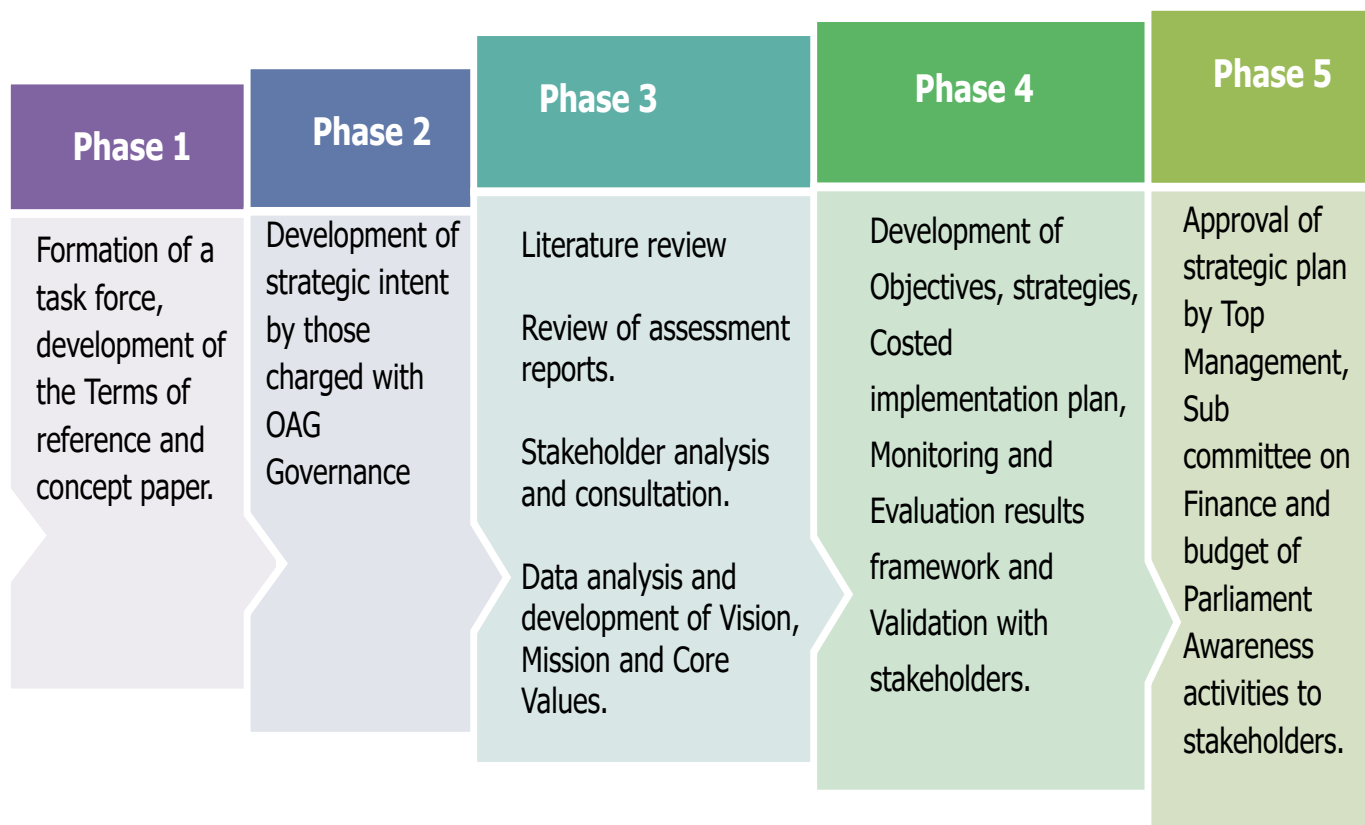

Figure 4: A phased approach to OAG Strategic Plan development

iii. Structure of the strategic plan

The strategic plan is arranged in a logical order to provide the user with information to understand the OAG's contribution to improving accountability and good governance, structures to deliver this plan, costed strategic intent, and monitoring and evaluation arrangements as indicated below;

- 1.0: Overview of the plan.
- 2.0: Situational analysis
- 3.0: Strategic Direction
- 4.0: Financing framework and Strategy
- 5.0: Institutional Arrangements for Implementing the Plan
- 6.0: Monitoring and Evaluation procedures
- 7.0 Risk Management
- 8.0: Communication and Feedback mechanisms
- 9.0: Project Profiles

iv. Guiding Principles of the plan

Strong leadership role

For any plan to be successfully implemented, it requires a firm tone and involvement from Management. Continuous reflection and guidance on implementing initiatives will create ownership and congruence in attaining the goal and objectives set in this plan.

Existing Legal frameworks

This strategic Plan takes into account the requirements of existing National and International laws.

Good governance

Positive exercise of authority in promoting accountability, management of feedback, prudent handling of emerging risks, upholding the organisation's norms and values as well as instilling and encouraging a culture of high performance will lead to successful implementation.

Resource availability

Mobilisation of adequate resources to finance the plan is essential for its successful implementation.

Sustainability of the initiatives

Alignment of the strategic plan to the NDP III and adoption of the SDGs within the OAG operating framework, as well as prudent and balanced implementation is a prerequisite for its sustainable realisation.

Stakeholder partnerships and relations

Successful implementation of this plan requires strong partnerships and collaboration with stakeholders. The OAG will continuously strengthen and widen its scope of stakeholder engagements to enhance performance.

Stable macroeconomic environment

The operating environment of the OAG is significantly influenced by prevailing macroeconomic factors, which have a bearing on the resource envelope and audit strategies. Such factors include inflation rate, exchange rates, macroeconomic policies, and general influences on economic growth among others. A stable macroeconomic environment is an enabler for the successful implementation of the strategic plan.

Effective Monitoring and Evaluation system

Continuous assessment of and soliciting feedback on the performance of the strategic plan is a critical factor towards realisation of its goal and objectives. This will support evidence-based decision-making and the adoption of corrective measures.

2.0 SITUATIONAL ANALYSIS

2.1. Performance of the 2016-2021 Corporate Strategy as at 31st December 2019

The overall performance of the corporate strategy for the three and half years ending 31st December 2019 was as follows; 37% of combined strategic activities were completed, 57% were in progress and 6% were not started. This was partly due to the reduction of the corporate strategy period by one year to 30th June 2020 instead of 30th June 2021 to align it with NDP II and III timelines.

A summary of the three and half year performance is presented in the figure below:

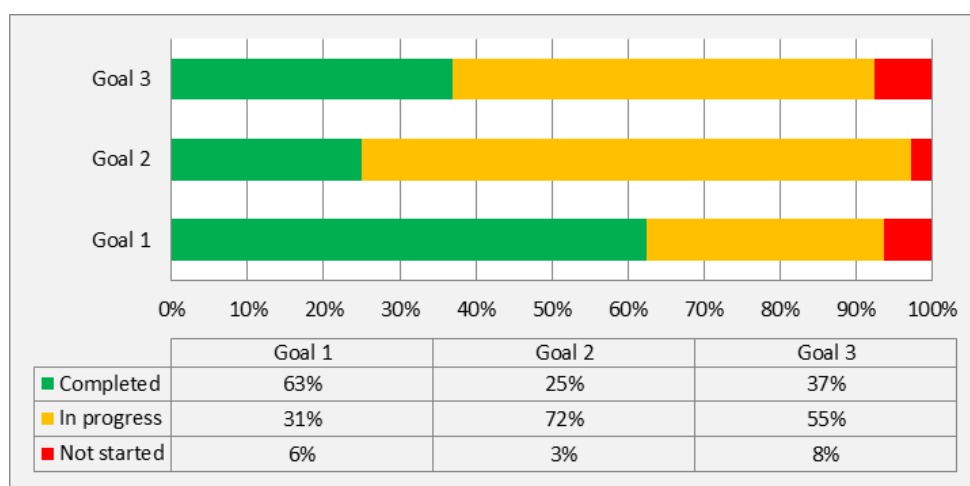

Figure 5: Performance of strategic Objectives per goal

a. Key milestones for the above goals

During the above implementation period, the Office made significant improvements in performance as highlighted below:

- i. In line with the Auditor General's mandate, the Office delivered the audits highlighted in the table below:

Table 1: Audits conducted during the strategic periods 2011-2016 and 2016-2020

Type of audit	2011 -2016 (five years)	2016-2020 (four years)	Remarks
Financial audits	8,313	9,107	This includes audits of the Consolidated Government of Uganda Financial Statements, Central Government Ministries Departments and Agencies (MDAs), Projects, Public Universities, Uganda Missions abroad, Commissions, National Referral Hospitals, Higher Local Governments, Urban councils, Sub Counties, Schools, and Tertiary Institutions
Value for Money audits	53	38	These are independent examinations of the extent to which a public organisation has used its resources in carrying out its responsibilities in line with the principles of economy, efficiency, and effectiveness.
Forensic investigations and IT audits	140	230	Forensic investigations are designed to gather evidence and prove the existence of fraud, culpability and misuse of Public funds. IT audits are meant to review and evaluate an organisation's information technology systems to assess its integrity and performance.

- ii. The Office adopted INTOSAI standards by implementing the Financial Audit Methodology (FAM) and the Compliance Audit Methodology (CAM) as part of continued efforts to improve audit processes. Compliance of financial audits with ISSAIs improved from 54% in 2015 to 63.15% in 2019
- iii. Introduced an Integrated Audit Approach to enhance the quality of audit reports.
- iv. Developed and implemented report-writing guidelines to enhance the usability of our audit reports.
- v. Increased annual accessibility of audit reports to our stakeholders through the OAG website, which resulted in an increase in the number of users from less than 5,000 in 2016 to 21,358 by December 2019, hence an increment of 327%. This served to aid transparency and accountability.
- vi. Increased the OAG workforce from 463 staff in 2016 to 531 staff in 2019 indicating a growth of 14.7%.

- vii. The Office enhanced its operational independence by constructing and equipping Hoima and Moroto branch offices increasing our branch offices from 9 to 11. Arua branch reconstruction is ongoing and is expected to be completed by the end of 2020. The Office has also acquired 5 acres of land expected to accommodate a training centre, host Kampala branch office and forensic laboratories.
- viii. To improve efficiency and effectiveness, the Office secured funding and completed the procurement process for an Integrated Management Information System. Its implementation commenced in the FY 2020/2021.
- ix. In addition, the Office undertook a job evaluation exercise that comprised a review of the organisation structure, job grading, and designing job descriptions for all positions. Implementation of the Job Evaluation recommendations is in progress.
- x. The Office strengthened its relationship with other stakeholders in the accountability sector. In this regard, the Office signed three MoUs namely: OAG, PPDA, and IG; OAG and URA; and lastly OAG and FIA to share information and improve the delivery of each institution's respective mandate.
- xi. The Office continues to contribute to the international community by chairing and hosting the secretariat of INTOSAI Working Group on Audit of Extractive Industries (WGEI). Besides, our relationship with INTOSAI affiliated bodies such as AFROSAI-E has been strengthened.

b. Success factors that influenced the last Corporate Strategy 2016-2022

Leadership and Management commitment

OAG's leadership and management commitment was an engine in driving the performance of the corporate strategy. Their tireless efforts to guide implementation of the initiatives and establishment of a Monitoring, Evaluation and Reporting function to continuously assess the performance of the strategy cannot be over-emphasized.

Parliamentary Support.

OAG's strong partnership with Parliament in fulfilling its role to oversee public accountability enhanced our performance. Parliament's support towards financing the Office, discussing audit reports and following up audit recommendations in discharging its oversight function, and its continuous guidance influenced improvements in our performance.

Support from Development Partners.

Development Partners' support towards improving operational independence and the OAG's capacity to effectively contribute to improving public accountability and service delivery to the citizens requires recognition. With their support, the Office has achieved significant advancements in physical independence and capacity building.

Improved human resource capacity.

During the period, our workforce increased from 457 staff in 2016 to 531 staff in 2019. The capacity building initiatives supported by GoU, Development partners, and peer Supreme Audit Institutions enhanced professionalism, motivation, and commitment to deliver on the Office's mandate. The youthful staff have been fundamental in coping with an increased workload in the dynamic environment.

c. Challenges in implementing the previous Corporate Strategy

Roles and Responsibilities

Roles and responsibilities in the corporate strategy were assigned at a high-level i.e. Assistant Auditor General-Audit and Assistant Auditor General-Corporate; as a result, the Directorates, Departments, and Units did not take ownership and direct responsibility for implementing the strategy.

Measurement of results

The absence of baseline information, milestones - evaluating progress over time and measurable performance indicators in the corporate strategy made it difficult to assess the outcomes.

Monitoring and Evaluation (M&E)

The strategy was ambitious and lacked a clear and appropriate M&E framework to monitor and track implementation. In addition, the late establishment of the Monitoring and Evaluation Unit to monitor, evaluate, and report on the implementation of the strategy hampered the feedback system and follow up of implementation.

Alignment of OAG Corporate Strategy timelines to NDP II

The OAG corporate strategy 2016-2021 planning period was not aligned to the National Development Plan (NDPII) due to historic Office planning cycles that started before the National Planning Authority produced the country's first NDP I. As a result, the strategy-implementing period was reduced from 5 to 4 years to ensure alignment of the implementation period with the NDP III.

The above limitations have been considered in the formulation of this strategic plan 2020 – 2025. The post strategic planning activities will involve awareness engagements with all stakeholders to continuously collect performance data and feedback for management to take corrective actions.

2.2. Contribution to the National Development Plan II

During the NDP II implementation period, OAG pursued initiatives consistent with the accountability sector plan and NDP II. Our performance in this regard has been summarized against the NDP II objectives and interventions as shown in the table below:

Table 2: OAG contribution to NDP II

NDP II Objective	NDP II Intervention	OAG contribution to NDP II
1. Enhance the prevention, detection, and elimination of corruption	Strengthen the Anti-Corruption Institutional and legal framework.	The process of reviewing the NAA 2008 commenced internally and the gap analysis for identifying areas of the amendment is almost complete.
	Strengthen the capacity of investigation and prosecution function.	a. The office issued 9,947 audit reports from July 2016 to December 2019.¹ b. Increased its workforce from 463 to 531 (14.7 %). c. Acquired engineering material testing tools to support infrastructure audits with support from FINMAP.
2. Increase public demand for accountability	Improve communication and impact of audit findings to Stakeholders.	a. OAG communicated the impact of audit reports to stakeholders in its annual Performance reports. b. OAG reports were uploaded on the OAG website and its usage increased by 327% from 2016 to 2019. c. Established an independent OAG M&E function to continuously monitor and evaluate the impacts of audits.
3. Improve compliance with accountability rules and regulations	Ensure follow up and implementation of recommendations made by oversight institutions.	a. 2 Treasury Memoranda were audited and reports submitted to Parliament. b. A shared platform for tracking audit recommendations was initiated with other entities that include PPDA, MoLG, Parliament, Accountant General, and MoPS. c. Tracking audit recommendations using Teammate audit software was piloted. d. Annual prior audit recommendations were followed up in subsequent audits and results reported in the OAG performance report.

¹ OAG Annual Performance Report 2019

	Introduce measures to improve timeliness, audit coverage, and quality reporting.	a. Developed and implemented report writing guidelines to enhance the usability of our Audit reports. b. Rationalization of resources to the audit of lower local governments during low peak periods reduced LLG backlogs. c. The introduction of a graduate trainee program to address the human resource gap increased our workforce.
	Strengthen existing mechanisms for providing technical support to districts and PAC on Audit reports.	a. Enhanced capacity of Parliamentary Liaison office (3 senior staff were deployed to the unit). b. 36 District Public Accounts Committees were trained by OAG on the use of audit reports and their roles and responsibilities.
	Develop capacity for intra and inter-sectoral collaborations, partnerships, and networks in the fight against corruption.	Developed a collaboration strategy between PPDA, OAG, and IG to enhance coordination and harness synergies among institutions.
4. Improve collaboration and networking amongst development institutions	Identify and pursue appropriate collaboration and networking with Audit, Ethics, and Anti-Corruption Institutions at Regional and International levels.	a. Signed and implemented collaboration MoU between PPDA, IG, and OAG on information sharing and Stakeholder engagement. b. Signed and implemented a collaboration MoU with FIA, and URA. c. OAG was an active member of the Accountability sector and Inter-Agency Forum, which coordinates accountability and good governance initiatives. d. OAG was an influential member of INTOSAI and its affiliated bodies. OAG is the chair of the INTOSAI Working Group on Audit of Extractive Industries and a member of the Working Group on Environment Audit.

The OAG contributes to the attainment of the United Nations SDGs through the audits we undertake. Our financial audits touch on several SDGs, but mainly cover SDG 16 (Peace, Justice, and Strong Institutions). The forensic investigations, Value for Money, Specialized and compliance audits consider several aspects of the SDGs following the Office's priority themes and overall risks. Specifically, in 2018 the Office undertook a performance audit on the Government's preparedness for the implementation of Sustainable Development Goals.

2.3. Stakeholder Analysis

A Stakeholder analysis was performed to identify our Stakeholders. The analysis considered Stakeholders as per the existing legal framework, their interests, and level of influence. The analysis identified interests specific to each Stakeholder and the opportunities for OAG in engaging with the Stakeholders. The details of the analysis are in Annex 1

2.4. SWOT Analysis

In assessing our operating environment, we conducted an analysis of our current strengths and weaknesses as well as potential opportunities and threats (SWOT analysis). The analysis took into account the OAG legal framework, feedback from stakeholders, the performance of the corporate strategy 2016 – 2021, quality assurance reports, the legal framework, AFROSAI-E institutional capacity-building framework, and SAI performance measurement framework. The results of the analysis summarized in the table below.

Table 3: SWOT analysis

STRENGTHS	WEAKNESSES
a. All technical staff have the minimum qualifications in different disciplines (140 certified accountants, 21 IT staff, 8 lawyers, 5 HR officers, 1 engineer, 3 economists, and 1 environmentalist etc). b. Growing collaboration with other SAIs, Anti-corruption agencies, and other stakeholders to build capacity, harness synergies, and increase the impact of our work. c. Enabling Legal framework. d. Strong Parliamentary support. e. Automation of Audit and some management processes (Teammate utilization and adaptation of a wide area network, IFMIS, Payroll management). f. Improving compliance with ISSAIs. g. Committed Top management leadership and staff. h. The growing capacity of the M&E function i. Strong control environment supported by internal policies, manuals, strategies, and guidelines. j. Enhanced physical independence and presence across the country. k. Improving Office structures. l. Availability of reasonable resources. m. Youthful qualified human resources.	a. Incidences of non-adherence to Office ethical values. b. The gap in the culture of performance excellence. c. Lack of mechanisms to follow up audit work d. Inadequacy of Human resources policies for example succession and rotation planning etc. e. Lack of institutionalized change management system. f. The mismatch between resource allocation and audit plans. g. Limited skills to undertake specialised Audits e.g. engineering audits, oil and gas, etc. h. Weak Risk Management approaches. i. Un-streamlined staff training and capacity building initiatives. j. Inadequate institutional capacity (tools, staff numbers, and skills) to fully deliver on audit mandate. k. Increasing turnover of highly skilled and specialized audit staff.

OPPORTUNITIES	THREATS
a. Political goodwill. b. Emerging technological advances to enable effective auditing. c. Support from Development Partners and other Stakeholders. d. Innovations aimed at improving the performance of the Office. e. Growing stakeholder interest in demanding accountability. f. OAG's good reputation in delivering its mandate. g. Automation of business processes through the development of an Integrated Management Information System(IMIS). h. Availability of youthful and educated labour force. i. The growing influence of SAI Uganda both regionally and internationally. j. Partnership with professional bodies and academia.	a. Continued infringement on financial and operational independence. b. Perception of widespread corruption in the country. c. Inadequate funding. d. Expectation gap. e. Unfavourable external public perception. f. Increasing range and scope of audit work as well as increasing demand for specialized audits/forensic investigations, and VFM audits. g. Litigation against the Auditor General arising from his mandate and the office. h. The emergence of pandemics/epidemics and their impact on audit processes. i. Limited follow up of audit recommendations. j. The increasing complexity of audit. environments e.g. IT, Infrastructure, corruption, etc. k. Dynamic political, social, economic, and regulatory framework.

2.5. Description of cross-cutting issues impacting on Accountability, Transparency and Good Governance

Gender and Equity

Article 21(1) to (3) of The Constitution of the Republic of Uganda, 1995 (as amended), guarantees equality and freedom from discrimination of all persons under the law. Gender mainstreaming is a Government framework initiative for redressing gender imbalances. As a result, a National Gender policy (2007) was formulated and it requires that planning, resource allocation, and implementation of development programmes have a gender perspective. In line with the above and SDG 5 (achieve gender equality and empower all women and girls), the OAG Human Resource Manual and policy (2013) advocates for the principle of equal opportunities for all employees regarding recruitment, selection and promotions, remuneration, training and staff development, welfare, deployment, working environment and managerial decision making. The office is cognizant of gender balance and has hence improved gradually to 65% (346) Male and 35% (185) female as at December 2019. The top management composition of females currently stands at 24%. All staff members are treated justly without discrimination. OAG gender mainstreaming has been progressing as indicated in the chart below.

A chart illustrating the progression of OAG women versus Men per age group

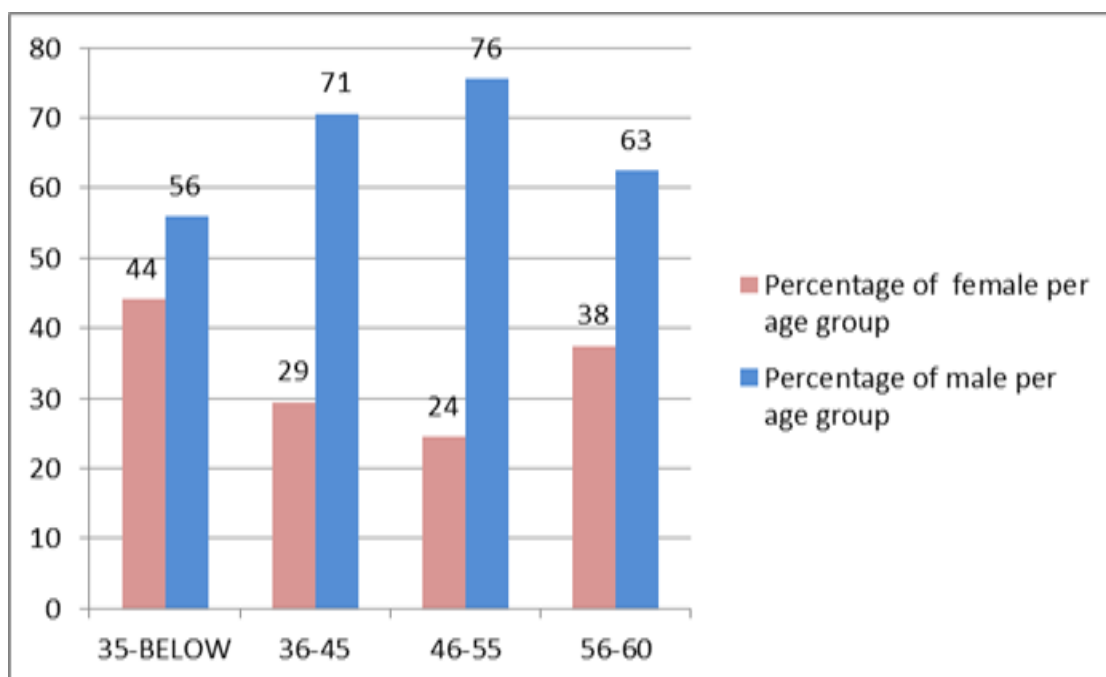

Figure 6: Progression of OAG women against Men per age group as at 31st December 2020

The majority of the women being in the youthful and productive age group require more support to balance the work requirements and family demands.

The OAG women initiated a program (OAG Women's Forum) to promote, improve, and maintain the professional and social growth of women at all levels in 2008 to help and address the emerging challenges. The major objectives of the forum are:

- a. To create a platform for discussing gender-related challenges that directly or indirectly impact on the attainment of the OAG mission, vision, and core values.
- b. To create a platform for OAG women and other employees to engage in professional and career development initiatives thus enhancing their ability to work effectively and efficiently in the attainment of the OAG mission.

The Office supports the forum's workplan and facilitates its activities whenever funds are available.

The Office is implementing the principles of gender and equity in budgeting and the development of its strategic and operational work plans. Additionally, the Office has mainstreamed gender and equity in all its activities.

During this strategic implementation period, the following interventions towards enhancing gender and equity will be pursued;

- i. A staff satisfaction survey aggregated by gender shall be undertaken and recommendations therein will be considered
- ii. Improving mothers' welfare by providing child daycare facilities after constructing an off-site facility and freeing up space at Audit House.
- iii. Integrating gender and equity in human resource management and encouraging men to actively participate in gender-related initiatives.

HIV/AIDS

The Constitution of the Republic of Uganda 1995, as amended contains some provisions that guide and influence the management of the national response to HIV/AIDS particularly the roles and mandates of government structures at various levels, protection of the rights of citizens and provision of social and economic services. Since the Government declared HIV/AIDS to be a threat to national development, efforts have been made to mainstream HIV/AIDS in national development frameworks and other sector-related strategies. The Office recognizes HIV/AIDS as a serious threat and takes all necessary measures towards its prevention, mitigation, and control, these include;

Continuous implementation of a non-discriminatory HIV/AIDS policy (2013) by promoting the health and productivity of staff members through developing and implementing effective prevention and care strategies for staff and immediate families guided by the following principles;

- i. Equal rights, opportunities, and obligations
- ii. Protection against discrimination
- iii. Access to complete information, education, and communication
- iv. Confidentiality

In addition, the Office plans to acquire professional counseling services accessible to all staff to ensure healthy and productive lives.

Environment

The Constitution of the Republic of Uganda, 1995 (as amended) under national objectives and directive principles of state policy Item XVII provides for sustainable utilization of natural resources in a balanced manner for the present and future generations. Article 39 provides that every Ugandan has a right to a clean and healthy environment.

In line with the above provisions, the Office has developed the capacity to undertake environmental audits and as such, the Office produces one environmental audit report annually. Also, the Office is a member of the INTOSAI Working Group on Environmental Auditing (WGEA) and continues to participate in WGEA activities.

The Office plans to enhance its responsiveness to environmental matters by;

- i. Increasing staff awareness on environmental issues about climate change and benefits of improving and preservation of a good environment for the future.
- ii. Reduce carbon emission by reducing paperwork through the digitalization of all Office business processes as well as introducing environment-friendly lighting systems to reduce energy consumption. Proposals are being considered to introduce sensor-controlled water dispersers.
- iii. As part of our commitment to improving the environment, the Office will participate in the International Environmental day on 5th June every year.

Innovation

The NDP III Objective 5 requires the Government to initiate interventions to increase transparency and eliminate corruption in the delivery of services through automation of institutional management function by strengthening e-Government.

In this regard, the Office uses Teammate audit software to execute its audit processes. Additionally the Office uses an official website to disseminate audit reports and other information to the public and intranet within the Office, as part of the effort to promote transparency and accountability.

The Office will be automating its business processes through an Integrated Management Information System project and develop a shared platform to disseminate and follow up audit recommendations.

Corruption, Culture and Mind-set

The National Development Plan III Objective 5 requires the Government to initiate interventions to improve transparency and accountability systems through strengthening the prevention, detection, and elimination of corruption.

OAG's contribution towards the above requirement has been through audits (financial, compliance, value for money, specialised audits, and forensic investigation audits). We have also participated in anti-corruption awareness campaigns through media, barazas, and charity walks among others. The Office is also committed to upholding ethical values and inculcating a culture of accountability in its business processes.

We plan to enhance the above interventions by implementing the following;

- i. Introduce and implement mechanisms to prevent and fight corruption by enabling whistleblowing, investigation and follow up of corruption cases
- ii. Implement inclusive, transparent, and holistic planning and performance reporting
- iii. Deepening of audits targeting corruption as well as strengthening collaboration with other anti-corruption institutions.

2.6. Summary of emerging issues and implications

E-Government

The Government has been implementing e-Government initiatives to promote transparency and accountability. Such initiatives include the Integrated Financial Management System, Integrated Payroll Management System, University IT Systems, URA revenue IT management System, and National ID project among others.

In addition, the Government has prioritized automation of institutional management functions under the National Development Plan III - Public Sector transformation programme, Objective 5 to increase transparency and eliminate corruption in the delivery of services.

To effectively deliver the audit mandate, the Office will be required to enhance its current capacity to cope with the changing e-governance environment. The improvements will include increasing the number of IT auditors, enhancing skills, and retooling among others.

Increased Government investment in infrastructure for production

The country's investment in infrastructure development such as the construction of roads and bridges, dams, and standard gauge railway among others has been growing over time. For instance, development expenditure on roads alone grew from UGX1.3 trillion in FY2013/14 to

UGX1.7 trillion in FY2017/18². Infrastructure development remains an area of focus in NDP III as it plays an important role in contributing to a higher rate of economic growth leading to improvement of the country's standard of living.

The mandate of the Auditor General is to assure that public resources have been prudently utilized in delivering the above projects. To achieve this, engineering and other specialised audits must be conducted. The increase in infrastructure investments requires enhanced OAG capacity to deliver the assurance required.

Sustainability of National debt

The country's debt has been growing significantly. For example, public debt increased by 22% from UGX 33.99 trillion as at 30th June 2017 to UGX 41.51 trillion by 30th June 2018. Although Uganda's debt to GDP ratio is still below the IMF risky threshold of 50%, it is unfavorable when debt payment is compared to National revenue collected which was the highest in the region at 51%³ at the end of FY2017/18. This indicates increased country dependence on borrowing, a rise in concerns about debt sustainability, and a reduction in sovereign credit rating.

Audit of debt acquisition and management, as well as expenditure of borrowed funds, presents a challenge as it requires specialised skills to understand the borrowing processes and contracts. This calls for improved staff capacity to monitor and audit national debt.

Extractive Industries

Uganda's Oil and Gas sector has transitioned from exploration to preparation of discovered oil fields for production (development) and putting in place infrastructure for commercial production of the discovered 6 Billion barrels of oil and gas resources and facilitating developments in the sector⁴. In addition, Uganda's Vision 2040 aims to promote local beneficiation through value addition to minerals, in line with UN Agenda 2030 and AU Agenda 2063 which aim to achieve the sustainable management and efficient use of natural resources.

SAI Uganda as a member of INTOSAI chairs the Working Group on Audit of Extractive Industries. This presents an opportunity to build capacity through knowledge sharing with other members of INTOSAI. The OAG has continued to build capacity in the audit of extractive industries. However, there has been a high turnover of skilled staff that has joined other government bodies in the sector. Furthermore, as noted above the sector has evolved and requires enhanced skills to undertake audits in exploration, infrastructure development, production, and sales. Uganda became a member of the Extractive Industries Transparency Initiative (EITI) and the Office was appointed EITI-Uganda information auditor.

² Background to the budget Fiscal Year 2018/19

³ Annual report of the Auditor General for FY2017/18

⁴ Uganda Oil and Gas brochure April 2019

Successful audit of this sector will require sufficient capacity to undertake audits at all levels of the extractive industries value chain. This will necessitate attracting appropriately skilled staff and enhancing the capacity of existing staff to undertake such audits as well as designing initiatives to reward and retain them.

Natural disasters and country preparedness

The recent spate of natural disasters across the country for example landslides, floods, prolonged droughts and locust invasions have contributed to retardation of the country's growth and development. These disasters have led to loss of lives and property as well as a decline in the livelihood of affected communities. The country's disaster interventions in addition to coordination of relief and resettlement of affected persons, increases the strain on the National budget and remains a high-risk audit area.

Corona Virus Pandemic (COVID-19) Impact

The emergence of the COVID-19 pandemic without a cure or vaccine has disrupted economic activities worldwide. The duration of the pandemic is not foreseeable and its impact may not be easily measured and ascertained. Its spread has interrupted and changed our way of living and work. There is a need to innovate and adopt new methods of working while complying with prevention guidelines. The process of adopting new methods will take a while hence slowing down the current productivity of staff as well as increasing the use and cost of ICT infrastructure. Contingency planning shall be integrated into our management practices.

2.7. Institutional capacity:

Financial Resources:

Over the past five financial years (FYs 2015/2016 to 2019/2020), the Office received funding from two primary sources namely: the Government of Uganda and support from Development Partners. The GoU funding together with Development Partners support resulted in enhanced performance notably reflected by an increase from 1711 audits in 2016 to 3316 in 2019.

Government of Uganda funding

The GoU budget provision increased from UGX 46.496Bn in 2015/2016 to UGX 66.136Bn in 2019/2020 (including in-year supplementary allocations) representing an increase of 39.24% over the 5 year span.

Over the five year period, the average release vis-à-vis the approved budget was 99.23% while the average 5 year absorption rate (expenditure vis-à-vis release) was 99.05%.

The table below illustrates the Budget out – turn for 5 financial years from FY 2015/16 to FY 2019/20.

The graph below shows the year-by-year budgetary allocation to the OAG.

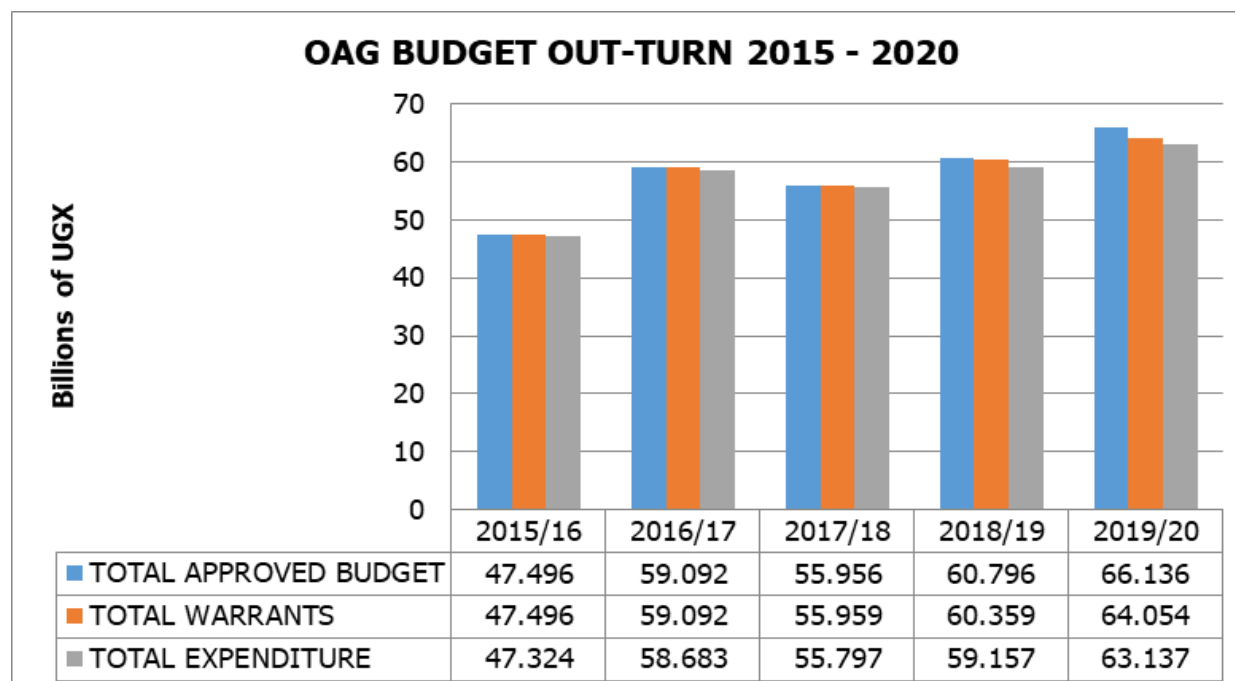

Figure 7: Year-by-Year budgetary allocation to the OAG

Support from Development partners

OAG received support from FINMAP and REAP equivalent to UGX11.794 Bn for improving institutional capacity and operational independence by constructing and equipping Hoima, Moroto, and Arua branch offices as well as supporting the procurement of an Integrated Management Information System (IMIS), among others.

European Union supported the Office with UGX9Bn to undertake infrastructure and LLG backlog audits and to build staff capacity in various disciplines. In addition, GAPP/USAID contributed UGX108Mn towards processing LLG backlog reports. The Office received technical support from peer SAIs (Norway and Sweden) towards enhancing the quality of audits and communicating audit results.

GIZ has been providing technical assistance to OAG since 2013. The support includes improving Office systems and structures, general capacity building, and enhancing stakeholder management and collaborations.

The SAI is a developing organization that requires continuous enhancement of its capacity to cope with changing audit standards, emerging issues and evolving stakeholder's interests in delivering the mandate.

Human Resources:

Our human resource is invaluable in delivering the audit mandate and our successful performance depends on the skills and experience possessed by our staff. In addition, our workforce is diverse representing all ages, affiliations and backgrounds of our society.

The Office continues to support its staff through training and development to ensure that they are sufficiently empowered to deliver the mandate and unlock their potential.

OAG has qualified staff who possess a vast range of skills across various professions including Accountants, Statisticians, Engineers, Economists, Geologists, Social Scientists, Environmentalists, IT specialists and Lawyers.

The total establishment for the OAG stands at 527 out of which, only 484 positions are filled. This translates to a nine percent (9%) staffing gap.

386 staff are deployed in the audit directorates as technical staff and 98 staff in the corporate division provide support to the audit function of the office. Majority of the staff (34.9% overall and 44% of the audit staff) are deployed in Local Authorities to enhance access to audit services across the country as shown in the figure below.

Figure showing staff deployment across the different directorates.

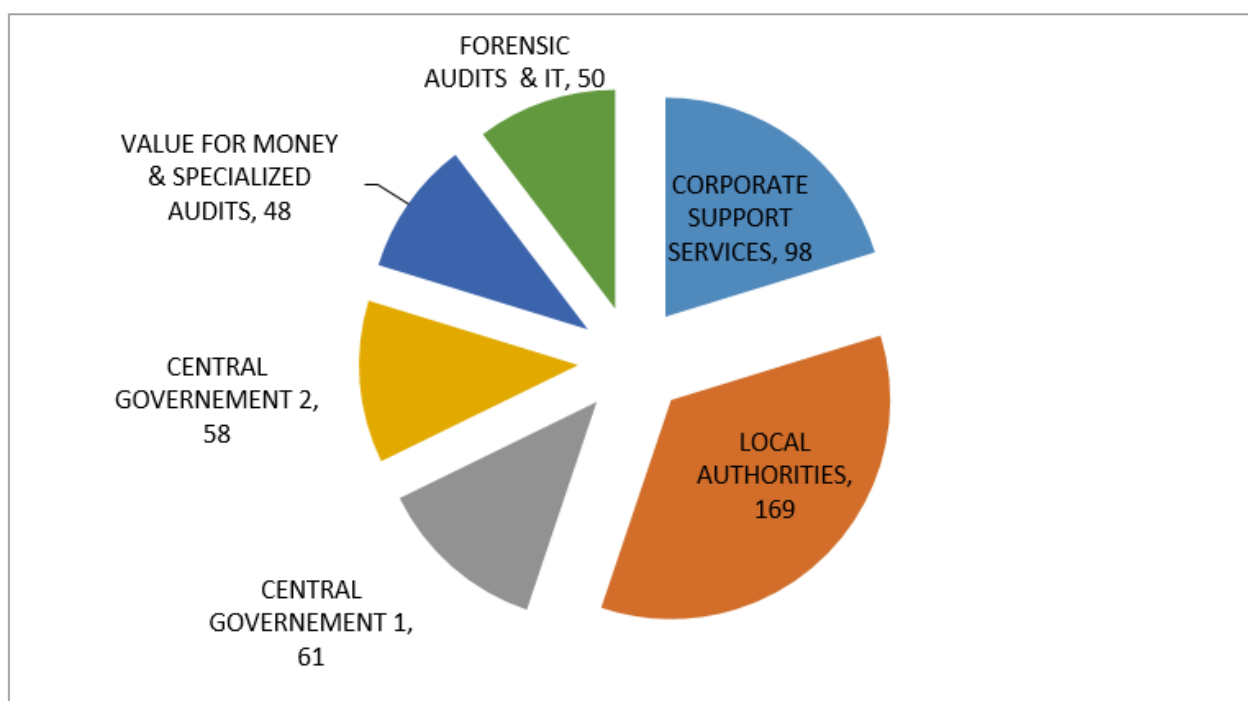

Figure 9: Staff deployment across the different directorates.

Monitoring and Evaluation Function:

Accountability and transparency are essential elements of good governance arrangements and the OAG holds these pillars in high regard. As a consequence, the office keeps reviewing its own operations and performance with an aim to achieve higher standards than the organisations it audits.

The OAG has a functional monitoring and evaluation unit currently headed by a Senior M&E officer supported by a Monitoring and Evaluation Officer. The unit is guided by the National M&E Policy 2013, OAG M&E Policy, M&E Framework and OAG M&E guidelines.

The function scopes its work to continuously report on a quarterly and annual basis. The quarterly reports focus on the annual operational plans implementing the strategic plan whereas the annual report focuses on the overall performance for the financial year.

Following the policy, the M&E unit reports to the M&E committee for quality control and assurance and subsequently, submits its report to Top management through the Director responsible. The annual performance reports are also submitted to the subcommittee of Parliament on Finance, Planning and Economic development which oversees OAG governance. In addition, budget performance reports are generated from the Programme Budgeting System (PBS) and submitted to MoPFED as required by the PFMA 2015.

All M&E data and information is subjected to review and quality assurance checks to preserve the integrity of the data generated annually before publication of any M&E result.

3.0 STRATEGIC DIRECTION

3.1. Institutional Capacity Building Framework

For the next five years, OAG has set out to achieve enhanced organisational performance for impactful audits in line with her vision and mission.

Our assessment to identify the areas of interventions was based on the following strategic domains as per the AFROSAI-E Institutional Capacity Building Framework: Governance, Organizational performance, Financial and operational independence, Quality of audits, Follow up of audit recommendations, Human resources, Communication, and stakeholder engagement. As a result, our theory of change is summarised in the figure below:

Figure 8: Theory of change

As per the 2019 ICBF self-assessment, the office is currently at level 3 and it is projected that it shall achieve level 4 at the end of the strategic period. OAG has set different initiatives aimed at achieving level 4 as described in the table below.

OAG initiatives to achieve ICBF level 4

Table 4: OAG initiatives to achieve ICBF level 4

	ICBF level 4 requirements	References to OAG initiatives
a	The SAI and key stakeholders are fully satisfied with the implementation of plans, procedures, etc.	Intervention 2.5.2, Activity 2.2.5.3, 2.5.1.1.
b	The SAI is capable of managing its core business in the most cost-efficient and cost-effective way.	Specific objective 1.1 and 1.2, Intervention 2.1.1
c	The key stakeholders do not question the SAI's independence and the SAI has fully earned its independence.	Specific objective 1.1 and 1.2, Intervention 2.1.1
d	Risks are expertly managed by the SAI, which now can produce strategic and annual operational plans based on calculated costs.	Intervention 2.1.2, Activity 2.1.1.5, 2.1.1.6
e	The "tone at the top" creates an environment which encourages change and innovation at the SAI.	Intervention 2.4.4, Activity 2.2.1.1.
f	Productivity is measured.	Activity 2.1.3.6, 2.2.1.2.
g	The SAI's human resource and development policy and plans are integrated with the key audit processes to the full satisfaction of the staff and the key stakeholders.	Specific objective 2.2
h	The regularity audit coverage is as at level 3, 100% of the budget expenditure, but now to the full satisfaction of the SAI and the key stakeholders.	Specific objective 1.1
i	The annual report is submitted to parliament within 2 months of the period covered.	Specific objective 1.1 and 1.2
j	The SAI is using at least 40% of its audit staff for a performance audit. Communication channels between the SAI and the key stakeholders are implemented to the full satisfaction of the parties.	Intervention 1.2.2.
k	The SAI provides value and benefit to their constituencies concerned and is a well-recognized institution by the media and the general public.	Activity 1.1.1.4 , 2.1.3.3 and 2.1.3.6

NB: The detailed information can be found in Annex 5

3.2. Our Vision, Mission, and Core Values

Our vision: - 'A model Supreme Audit Institution that adds value to society.'

Our mission: - 'To provide our stakeholders with independent audit results that promote good governance for better service delivery.'

Our core values:

In carrying out our responsibilities and work, we are guided and committed to living by our core values below:

Integrity and Ethical conduct: Being honest and morally upright.

Professional competence: To act with diligence, proficiency, and team spirit.

Objectivity: Being impartial.

Service – delivery oriented: Value addition centered.

3.3. OAG Strategic Goal, Objectives and Outcomes

This strategy is designed to build upon the OAG's past successes while taking into account current and emerging issues related to public accountability and good governance. Consultation with stakeholders and our performance assessment provided a clear understanding of the objectives for this strategic plan.

Overall goal: Enhanced organizational performance for impactful audits

The strategic focus for the period 2020-2025 is to make a sustainable difference in the lives of citizens and add value to society. The Office has prioritized improved organizational performance in all operational aspects through 2 strategic objectives: 1 -Enhance the relevance of audits for improved public transparency, accountability, and service delivery; and 2 - Enhance institutional capacity to effectively and efficiently deliver its mandate.

Consequently, the envisioned performance gains arising from the planned strategic objectives are geared towards the realisation of relevant and high impact audits that will enhance service delivery for the betterment of society as well as improved stakeholder satisfaction and the office's influence in the wider INTOSAI community.

Result for the Goal

Table 5: Goal results

Outcome	Indicator	Baseline	Overall Target	Annualized Targets					Means of Verification
				FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25	
1. Enhanced value to society	Level of stakeholder satisfaction	73.6%	85%		76%			85%	Perception Survey Report
	OAG return on investment	Not Available	5:1 (aggregate Value arising from each shilling spent on audit)	2:1	3:1	4:1	4.5:1	5:1	Value addition reports and periodic financial reports
2. Attain level 4 (managed level) as per the AFROSAI-E ICBF model	ICBF Rating	Level 3	level 4	level 3	level 3	level 3	Level 4	level 4	ICBF assessment report

Strategic Objective 1: Enhance the relevance of audits for improved public transparency, accountability, and service delivery.

In compliance with the legal mandate and the International Standards for Supreme Audit Institutions (ISSAIs), the Office has prioritized undertaking impactful audits relevant to the stakeholders' needs, government priorities, and responding to emerging areas. This will be achieved through continuous improvement on the quality of audits, scope management to optimize resources, improving efficiency using professional approaches to enhance value addition, and follow up on the implementation of audit results to harness desired outcomes; and strengthen institutional capacity to effectively undertake audits. This is aimed at enabling the Office to achieve its audit objectives pertaining to sustainable delivery of the mandate namely; improving citizens' confidence in our work, the professionalisation of the OAG, and strengthening the accountability, transparency, and integrity of public sector entities.

Table 6: Result Matrix for strategic objective 1

Outcome	Indicator	Baseline	Overall Target	Annualized Targets					Means of Verification
				FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25	
Improved public transparency, accountability, and service delivery	Number of policy changes resulting from the audit	Not available	5 every year	5	5	5	5	5	Policy instructions issued by the Executive
	Number of sanctions/prosecution arising from audit reports	Not Available	100 after 5 years	10	15	20	25	30	Feedback from Anti-Corruption agencies, MoPS and MDAs. Analysis of results from the shared platform
	Percentage reduction in the value of cross cutting audit issues	Not available	35%	10%	15%	20%	25%	35%	Annual AG's report to Parliament

Outcome	Indicator	Baseline	Overall Target	Annualized Targets					Means of Verification
				FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25	
	The aggregate value of savings/ recoveries resulting from the audit	Not available	UGX. 450Bn	50Bn	80Bn	100Bn	110Bn	110Bn	Value addition report extract
	Level of stakeholder satisfaction with OAG work	73%	85%		76%			85%	Perception Survey report

Strategic Objective 2: Enhance institutional capacity to effectively and efficiently deliver the mandate

To achieve our strategic direction and effectively deliver on the Office's mandate, enhancing institutional capacity has been prioritized at all levels. This will be achieved through improving: internal governance and risk management, human resource management, operational efficiency, ICT and innovation, and communication and stakeholder management. Interventions for the above five broad administrative functions have been developed to instill a culture of excellence and high performance in pursuit of being a model organisation. Stronger collaborations and partnerships with stakeholders will facilitate harnessing of synergies across the accountability value chain and aid in improving institutional capacity as well as realize our desired audit outcomes. Also, our business re-engineering and innovation through the implementation of Integrated Management Information Systems will lead to improved transparency, operational effectiveness, and efficiency in delivering our mandate.

Table 7: Result matrix for strategic objective 2

Outcome	Indicator	Baseline	Overall Target	Annualized Targets					Means of Verification
				FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25	
Improved efficiency and effectiveness of institution operations	Percentage of audit coverage	14.21%	40%	10%	15%	20%	30%	40%	Annual report of the Auditor General
	Government Annual Performance Rating	Baseline (FY 2018/2019): 50%	90%	55%	60%	70%	80%	90%	Government Annual Performance Reports
	Annual NPA compliance rating	51.4%	85%	65%	70%	75%	80%	85%	Annual NPA certificate of compliance report
	External Auditors opinion	Baseline (FY 2018/19): Unqualified opinion	Unqualified opinion	Unqualified opinion	Unqualified opinion	Unqualified opinion	Unqualified opinion	Unqualified opinion	Annual reports on external audit of OAG

Our strategy for the period 2020-2025 is summarized in the table below.

Table 8: OAG strategy for period 2020-2025

Strategic goal: Enhanced organizational performance for impactful audits		
Strategic Objectives	Specific Objective	Interventions
1.0 Enhance the relevance of audits for improved public transparency, accountability, and service delivery.	1.1 Undertake high-quality audits targeting improved service delivery through professional approaches.	1.1.1 Effective overall audit planning and scope management to optimize audit resources and undertake audits focused on value addition and service delivery
		1.1.2 Review and implement audit approaches and reporting frameworks to promote efficiency and enhance the value of audits
		1.1.3 Improve audit quality management system
		1.1.4 Manage post-audit activities to harness desired outcomes
	1.2 Conduct audits responding to stakeholder needs and emerging issues.	1.2.1 Enhance capacity in undertaking e-government system audits and use of BIG Data analytics
		1.2.2 Increase VFM, specialised, forensic and any other audits mapped onto SDGs
		1.2.3 Enhance institutional capacity to undertake audits of government priorities and emerging areas. (E.g. extractives, infrastructure projects, revenue, PFM reforms, ICT, etc.)
2.0 Enhance institutional capacity to effectively and efficiently deliver the mandate	2.1 To improve internal governance for enhanced compliance and robust risk management.	2.1.1 Strengthen OAG legal framework and enhance compliance for effective corporate governance
		2.1.2 Strengthen internal controls and mitigation of risks for improved governance and compliance
		2.1.3 Improve performance management through robust Monitoring and Evaluation processes
	2.2 Attract, develop and manage human resources to improve performance.	2.2.1 Review and implement a performance management system that instills a culture of excellence
		2.2.2 Implement a comprehensive capacity-building programme to enhance performance
		2.2.3 Attract, retain and manage talent to strengthen Office capacity in a dynamic environment

Strategic Objectives	Specific Objective	Interventions
		2.2.4 Implement appropriate Human Resources policies and structures to effectively manage staff
		2.2.5 Establish a system that enables the highest ethical and professional standards in all our work
	2.3 Enhance financial management and operational efficiency.	2.3.1 Enhance transparency and efficacy of planning, budgeting, and performance reporting
		2.3.2 Efficient Financial management and reporting
		2.3.3 Improve efficiency and effectiveness of procurement and disposal processes to enhance compliance, value for money, and transparency
		2.3.4 Effective, efficient, and sustainable construction and maintenance of all OAG premises
		2.3.5 Efficient acquisition and management of inventory, fleet and security
	2.4 Improve IT as a business enabler through greater collaboration, resource optimization, and innovation.	2.4.1 Enhance information security and privacy to mitigate cyber risks
		2.4.2 Improve information management and analytics to support robust decision-making
		2.4.3 Ensure availability of IT services to support continuity of business processes
		2.4.4 Provide quality IT services responsive to business needs to improve efficiency and performance
	2.5 Effective communication and stakeholder engagement to enhance utilization of audit reports, increase demand for accountability, and raise OAG profile.	2.5.1 Manage internal and external communication to promote transparency and enhance the utilisation of audit results
		2.5.2 Strengthen collaboration with national and international stakeholders to enhance the impact of our work
		2.5.3 Support Parliamentary oversight, scrutiny, and feedback

NB: The detailed table can in found in Annex 5

3.4. Interventions to address Cross – cutting issues

In addition to the 27 broad interventions stated above, the office has identified issues of concern relating to the key cross cutting issues namely: Gender and Equity, HIV/AIDS, Environment and Covid 19.

Correspondingly interventions have been developed to address the existing and emerging areas pertaining to the above mentioned cross cutting issues. These have been detailed in Annex 5.

3.5. Linkages of the Strategic Plan to International Policy and Planning Frameworks

In development of this Strategic Plan, specific reference was made to other key overarching Policy Frameworks. These include: Vision 2040, Africa Agenda 2063, Agenda 2030 (Sustainable Development Goals) and the EAC Vision 2050. Therefore, the formulation of the overall strategic direction was done with the deliberate intention of creating a clear linkage to the provisions in these frameworks.

Additionally, the office through execution of its audits that provide assurance on the utilization of public resources, makes a direct contribution to achievement of all the objectives in these policy frameworks as well as implementation of the 17 Sustainable Development Goals. The table below demonstrates the linkage.

Table 9: Linkage to other overarching Development Frameworks

NATIONAL / INTER-NATIONAL AGENDAS	Objective	Interventions	Expected results	References to OAG initiatives
2030 AGENDA FOR SUSTAINABLE DEVELOPMENT	Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels	Means of implementation is to fully commit to a revitalized Global Partnership to ensure a spirit of global solidarity, in particular solidarity with the poorest and with people in vulnerable situations	16.4 Promote the rule of law at the national and international levels and ensure equal access to justice for all	Specific objective 1.1 and Specific objective 1.2
			16.5 Substantially reduce corruption and bribery in all their forms	
			16.6 Develop effective, accountable and transparent institutions at all levels	

NATIONAL / INTER-NATIONAL AGENDAS	Objective	Interventions	Expected results	References to OAG initiatives
AGENDA 2063 (THE AFRICA WE WANT)	Aspiration 3. An Africa of good governance, democracy, respect for human rights, justice and the rule of law	m). Consolidate a democratic and people-centered Africa. p). Set up an implementation, monitoring, evaluation system, underpinned by accountability and transparency	Africa shall have a universal culture of good governance, democratic values, gender equality, respect for human rights, justice and the rule of law.	Specific objective 1.1 and Specific objective 1.2
EAC VISION 2050	Zero tolerance to corrupt practices and misuse of development resources.	iv). Improve service delivery capacity and efficiency of the EAC Secretariat. v). Develop legal/policy framework/guidelines to improve Partner States' implementation of Community obligations.	Improving the quality of life of the people of East Africa through increased competitiveness, value added production, enhanced trade and investment	Specific objective 1.1 and Specific objective 1.2
UGANDA VISION 2040	World class infrastructure and services, and modern technology to improve productivity and production.	Harnessing strategic opportunities by strengthening the relevant fundamentals that facilitate maximum returns from the opportunities	Principle 2.2.3 Good governance exercised characterized by citizen transformation and participation political stability, and respect for the rule of law, Government effectiveness, regulatory quality and effective knowledge management.	Specific objective 1.1 and Specific objective 1.2

3.6. Linkage of the OAG strategic direction to the National Goal, Overall Objective, Programs, and Outcome Indicators in the NDP III

This strategic plan is linked to the National Development Plan III and Accountability Sector priorities developed in 2019. The strategic direction for the period 2020-2025 was designed taking NDP III interventions relevant to the Office into consideration. Specific OAG initiatives have been developed to contribute to NDP III interventions as referenced below.

Table 9: OAG contribution to NDP III

NDP III				References to OAG initiatives
Programme	Objective	Interventions	PIAPs results	
Governance and Security programme Goal: Improve adherence to rules of law and capacity to contain prevailing and emerging security threats	Objective 5: Strengthen transparency and accountability systems	Strengthen the prevention, detection, and elimination of corruption	Enhanced Quality and Impact of Audits	Specific Objective 1.1 and 1.2
		Strengthen and enforce compliance to accountability rules and regulations		Specific objective 1.1 and 1.2
			Improved OAG compliance with accountability rules and regulations	Intervention 2.3.1, 2.3.2, 2.1.3, 2.3.3
		Enhance the Public Demand for Accountability	Enhanced Utilization of Audit results	Specific objective 2.5, Intervention 1.1.3
		Mainstream Anti-Corruption initiatives (transparency, Accountability, and Anti-Corruption- TAAC) in all MDA Plans, Projects/ Programmes, and budgets	Strong control environment	Intervention 2.1.1, 2.1.2, 2.4.1
			Effective policies and structures developed and implemented	Intervention 2.1.1, 2.1.2, 2.4.1, 2.2.4, 2.3.4, 2.3.5
			Enhanced integrity of staff	Intervention 2.2.5, 2.2.4, 2.4.2, 2.1.2
			Automated information management system implemented	Specific objectives 2.4
Development Plan Implementation programme. Goal: To increase efficiency and effectiveness in the implementation of NDP III.	Objective 4: Strengthen coordination, monitoring, and reporting frameworks and systems	Enhance staff capacity to conduct high quality and impact-driven performance audits across government	Enhanced Quality and Impact of Audits	Intervention 2.2.2, 2.2.3, 1.2.3, 1.2.1, 1.1.4, 1.2.2, 2.1.3, 2.5.3

NDP III				References to OAG initiatives
Programme	Objective	Interventions	PIAPs results	
	Objective 6: Strengthen the Research and Evaluation function to better inform planning and plan implementation	Develop an integrated system for tracking implementation of external and internal Audit recommendations.	Enhanced Utilization of Audit results	Intervention 1.1.3, 2.1.2
		Expand the Performance/Value for Money Audits, Specialized Audits and Forensic Investigations undertakings	Enhanced Quality and Impact of Audits	Specific objective 1.2
		Promote the use of big data analysis techniques in Audit and Investigations		Intervention 1.2.1, 2.4.2

NB.

The proposed Accountability Sector priorities pertaining to the Office that were identified during the consultation process but were not laid out in the NDP III, have been integrated within the planned office initiatives in this Strategic Plan.

4.0 FINANCING FRAMEWORK AND STRATEGY

4.1. Costing interventions and results

Interventions under corporate strategy 2016 - 2021 were financed with support from GOU and Development Partners as indicated in section 2.7 above. The costing of this strategic plan has been done consultatively across the Office taking into account the different resource requirements necessary for the realisation of the strategic objectives set forth. In the next five-year strategic period, the Office shall still require support from the Government of Uganda and Development Partners.

Determination of related costs in this strategic plan has been guided by the following assumptions: Inflation and market prices will not change significantly; Foreign exchange rate shall not exceed UGX 3,900 to 1 USD; Public Service guidance on duty facilitation allowances shall not change; and MTEFs shall remain as projected.

4.2. Summary of funding requirements and MTEF projections (Billions)

The total funding requirement to finance this strategic plan over the five years is UGX 469Bn. It is envisaged that this Strategic Plan shall be primarily financed by Government of Uganda and Development Partners, as has been the case in the previous strategic periods.

The annualized resource requirements disaggregated by source of funding are detailed below:

Table 10: OAG Strategic Plan Annualized funding requirement:

Sources of Financing		Total Contributions FY1	Total Contributions FY2	Total Contributions FY3	Total Contributions FY4	Total Contributions FY5	Total Contributions -	(%) Share by source of financing
Central Government Transfers Total (Contribution)	Wage	28.9	35	41.5	43.5	47.5	196.4	84.21%
	Non Wage	26.60	32.50	41.30	41.30	41.50	183.20	
	Development	3.1	3.1	3.1	3.2	3.1	15.6	
Development Partners/ Collaborations		13.9	8.4	28.5	14.1	9.2	74.1	15.79%
TOTAL		72.5	79.0	114.4	102.1	101.0	469.3	100%

The GOU funding according to MTEF projections for the same period totals to UGX 406.7Bn leaving a funding gap of UGX 62.3Bn. Below is the analysis of the annualized cost estimates and MTEF projections.

Table 11: The analysis of the annualized cost estimates and MTEF projections

	Year 1			Year 2			Year 3			Year 4			Year 5		
	Requirement	MTEF	Funding gap	Requirement	MTEF	Funding gap	Requirement	MTEF	Funding gap	Requirement	MTEF	Funding gap	Requirement	MTEF	Funding gap
Wage	28.9	28.9	0.0	35.0	28.9	(6.1)	41.5	28.9	12.6	43.5	28.9	(14.6)	47.5	28.9	(18.6)
Non-wage **	26.6	36.5	9.9	32.5	39.5	7.0	41.3	47.4	6.1	41.3	56.9	15.6	42.5	66.3	23.8
Development	17.0	3.1	(13.9)	11.5	3.1	(8.4)	31.6	31.6	28.5	17.3	3.2	(14.1)	11.0	3.1	(7.9)
Total	72.5	68.5	4.0	79.1	71.5	7.5	114.4	79.4	35.0	102.1	89.0	13.1	101.0	98.3	(2.7)

*** The non-wage excludes routine expenditure like stationery, cleaning, etc.*

4.3. Resource Mobilization Strategy

The Office being a member of INTOSAI follows the INTOSAI guidelines to mobilize and finance its activities without compromising its independence in delivering the mandate.

As shown in table 10 above, this strategic plan will largely be financed by GOU (84.5%). This leaves the projected funding gap for strategic activities of 15.5% unfunded.

OAG sustainable financing strategies will include the following;

a. GOU funding

As indicated above, it is estimated that the GOU will finance about 86.7% of the strategic plan. This will be achieved through lobbying the Government to increase budget allocation to audit and integrating audit costs in all projects including Public-Private Partnerships (PPPs). This will ensure that all projects are timely audited and value for money is achieved.

b. Development Partners support

The Office is currently supported by Development Partners in undertaking high-cost audits, infrastructure projects, capacity building, and some downward accountability stakeholder initiatives. Their financial and technical support has been beneficial in realizing our initiatives. OAG will continue to solicit support from its strategic Development Partners without compromising its independence.

c. Partnerships with INTOSAI and its affiliated bodies

OAG being a member of INTOSAI will continue to subscribe to their capacity-building programmes to enhance institutional and human resource capacity to deliver the Office mandate and add value to society. INTOSAI develops audit standards for SAIs and delivers capacity programmes through its affiliated bodies. Consequently, OAG will continue to strengthen its partnership with INTOSAI and its affiliated bodies especially AFROSAI-E.

d. Audit of self-financing government bodies

The Auditor-General will continue to undertake audits in such Government bodies as required by law. Outsourced audit firms appointed by the Auditor General through tripartite arrangement sometimes audit these organisations. These organisations budget and pay fees for the audit services directly to the audit firms. However, some organisations have challenges financing the audits. OAG will enhance its coordination with these self-financing organisations to prioritize audit funding under section 30 of the NAA 2008.

5.0 INSTITUTIONAL ARRANGEMENTS FOR IMPLEMENTING THE PLAN

5.1 Coordination arrangements

The Auditor General has the overall responsibility of delivering this strategic plan; whereas the Assistant Auditor General-Audit and his/her Directors are responsible for realizing strategic objective 1-Enhance the relevance of audits for improved public transparency, accountability, and service delivery; and the Assistant Auditor General-Corporate with his/her Directors will be responsible for delivering strategic objective 2 - Enhance institutional capacity to effectively and efficiently deliver its mandate.

The implementation of the strategic plan will be through established OAG organisational structures, specifically the responsibility centres identified in the implementation matrix. Roles and responsibilities of key stakeholders in implementation of the strategic plan are indicated in Annex 8.

5.2 Sustainability Arrangements

The OAG Strategic plan 2020 – 2025 aims to effectively build institutional capacity to deliver the mandate of the Auditor General while adding value to society in the near and long term. The sustainability arrangements are highlighted below:

a. Independence and Legal framework:

This Strategic Plan has prioritized review of the National Audit Act 2008 and Article 163 and 164 of the Constitution of the Republic of Uganda 1995 (as Amended) as one of the key deliverables during the strategic period 2020 – 2025. This will provide the framework to enhance the independence of the Auditor General, to create an enabling environment to ensure the Office

can sustainably deliver its mandate. The legal and regulatory framework governing the Office should take into account dynamic circumstances and adequately provide for the Office to meet its obligations over time, and therefore the Office will pursue the steps necessary to realise this objective.

b. Governance (Leadership and management):

The OAG Governance structures are a key area of focus as the drivers for the attainment of the long and medium-term goals of the OAG. Therefore, the OAG Strategic Plan 2020 – 2025 aims to improve on the robustness and operation of the governance arrangements at all levels, to ensure clarity of roles and responsibilities; promoting organizational transparency; improving internal controls and OAG systems; as well as efficient and effective management for results.

c. Human resource capacity:

In the development of the OAG Strategic Plan 2020 – 2025, the integral role of human resources has been accounted for. Our staff capacity is critical in achieving the objectives of the Office. Moving forward, the strategic plan aims to enhance the capacity to deliver the OAG mandate. To comply with ISSAIs, the Office is required to continuously equip its staff with the necessary skills, knowledge, and tools to undertake audits of varying complexity and in a changing environment. Additionally, the mandate and scope of audit have been increasing as a result of creating more government administrative structures, projects, and improving demand for accountability. Therefore, the OAG Strategic plan has emphasized building staff capacity at all levels to effectively execute its mandate and create a difference.

d. Rationalization of resources:

Effective management of resources is essential to the sustainability of the OAG. The Strategic Plan has taken into account the projected resource requirements for the strategic activities detailed in this plan over the next 5 years. Implementation of the Integrated Management Information System will improve efficiencies in our business processes. The Office plans to develop a policy on audit resource rationalisation, which will lead to focusing resources on high value and high impact audits. Besides, the plan provides for effective utilization of human resource to undertake audits in low peak periods (January to April)

e. Innovations:

In response to government priorities, specifically implementing E-governance, Extractive industries initiatives, and increasing investment in infrastructure, the Office has planned for activities to enhance its capacity through innovation by acquiring appropriate technologies and equipping staff with the necessary skills to undertake audits in the above priority areas. Office structures and systems encourage creativity and innovation.

f. Harnessing synergies from collaborations:

The strategic plan has provided for strengthening collaborations along the accountability value chain and with external stakeholders to ensure the sustainability of Audit outcomes. This plan provides for enhancement of the collaboration with Parliament, the Executive (MDAs and LGs), and Anti-corruption agencies to sustainably harness synergies in promoting good public accountability and service delivery. In addition, the OAG as a member of INTOSAI and its affiliated bodies will strengthen its partnerships with other SAIs, Development Partners, Media, and Civil Society to build capacity and promote transparency and public accountability.

g. Monitoring and evaluation:

Availability of timely, reliable, and accurate information is essential for effective performance tracking and decision-making. An independent OAG M&E function has been established and critical interventions have been designed to enhance its capacity to effectively monitor and evaluate the implementation of this strategic plan. The Office shall continue to ingrain performance monitoring at all levels of the organization. This will foster a culture of accountability and high performance aimed at sustainably achieving the overall objectives.

6.0 MONITORING AND EVALUATION PROCEDURES

6.1. Monitoring and Evaluation Procedures

The OAG has a monitoring and evaluation function headed by a Senior M&E officer. In the reviewed structure, it will be headed by a Manager Planning, Monitoring, and Evaluation. The function is guided by the National M&E Policy 2013, OAG M&E Policy and guidelines. This unit will spearhead the monitoring and evaluation of this strategic plan.

The M & E team will independently conduct monitoring and evaluation activities and collaborate with other departments in creating awareness of the M&E function during this strategic planning period. In delivering the M&E function, the team will continuously engage the Planning unit to ensure that the annual work plans and budgets are aligned to the strategic plan. In collecting and validating performance information, engagements with Directorates, Departments and Units will be vital for ownership of the performance results and buy-in towards the implementation of recommendations therein. The engagements will also act as an avenue for assessment and providing feedback.

6.2. Progress Reporting

In performing the M&E function, the team will report per the OAG structures, M&E Policy, and guidelines. The function will scope its work to continuously report on a monthly, quarterly and annual basis.

The monthly and quarterly reports will focus on the annual operational plans implementing the strategic plan whereas the annual report will focus on the overall performance for the financial year. The annual performance reports will be published to demonstrate accountability and promote transparency.

Following the policy, the M&E unit will report to the M&E committee for quality control and assurance and subsequently submit its report to Top management through the Director responsible. The annual performance reports will also be submitted to the subcommittee of Parliament overseeing OAG governance. In addition, budget performance reports will be generated from the Programme Budgeting System (PBS) and submitted to MoPFED as required by the PFMA 2015.

6.3. Annual Performance Review

Following the annual performance report, review meetings will be held with different key stakeholders to evaluate the performance of the planned activities, identify challenges faced and suggest solutions, identify lessons learnt, key areas for improvement and discuss priorities for the subsequent year.

6.4. Midterm Evaluation

A mid-term evaluation will be conducted after two-and-half years (January 2023) of the plan's implementation. The purpose of this evaluation will be to: assess progress on implementation of the set objectives; review the strategies to address emerging issues where necessary; discuss any hindrances and their mitigation to realise the targets; as well as lessons learnt.

6.5. End Term Evaluation

At the end of the implementation period, an End Term evaluation will be conducted to assess the realisation and sustainability of results.

7.0 RISK MANAGEMENT

Office of the Auditor General operates in a dynamically evolving environment full of risks and uncertainty. This means that the planned activities could be significantly affected leading to inability to achieve our overall goal and objectives. It is therefore imperative that the office identifies enterprise risk and designs strategies to mitigate the impact of these risks. These strategies will continuously be monitored for adequacy during the implementation of the plan.

Whilst the office can not entirely identify and eliminate all risks, being aware of the nature of these risks and their origins can help us better manage their effect and steer a course to successful achievement of our objectives.

7.1 Risk categories

The risks have been categorised as External, Strategic and Operational risks

7.1.1 External Risks

These are risks from uncertain and uncontrollable external events. External events that lead to external risk cannot be controlled by the office or cannot be forecasted with a high level of reliability. The office therefore has to take measures to reduce the impact of these risks.

7.1.2 Strategic Risks:

These are risks that the office accepts to execute the strategy in order to generate superior returns/long term benefits. They arise from the fundamental decisions that top management take concerning the office's objectives.

7.1.3 Operational Risks:

These are risks arising from within the office's operations that do not generate strategic or long-term benefit. They normally result from ineffective or failed internal processes, people and systems

7.2 Risk rating and compilation

The AFROSAI-E Risk Management Guidelines require SAIs to take the necessary steps to identify, categorize and rank the risks it is exposed to according to their likely impact with the aim of taking a decision on how best the risks can be managed.

The identified risks have been rated on a 3-band scale (i.e. High, Moderate, Low) and the respective responses required for each rating have been summarized in table 12 below.

Table 12: Overall Risk Rating and Response

Overall Rating (Impact x Likelihood)	Response
LOW: (1 – 2)	Occasional monitoring. Tolerate; continue with existing measures and review annually.
MODERATE: (3 – 5)	Steady improvement needed. Continually monitor and perform periodic review.
HIGH: (6 – 9)	Highest priority, very serious concern. Immediate action required and review regularly.

All risks have been compiled and presented in the risk matrix on Annex 9. The table presents the risk assessment and mitigation strategies for the identified strategic risks over the implementation of this Plan.

In addition, activity level risks have also been detailed in the overall results framework (Annex 7)

8.0 COMMUNICATION AND FEEDBACK MECHANISMS

This strategic plan has been developed through a consultative process with staff at different levels as well as all directorates, departments, and units. It will be published on the Office website www.oag.go.ug and OAG intranet for accessibility by stakeholders and staff respectively. The hard copies will be printed and disseminated to selected stakeholders and public libraries.

Awareness programmes of the strategic plan 2020-2025 will be designed to disseminate the strategic direction, interventions, and activities to all OAG departments and directorates including branches. This awareness will aim at providing insight into the changes and value that will be created by this strategic plan. It will also provide a platform for sensitizing staff on the transformation from merely providing assurance through auditing to a focus on adding value to society. Lastly, awareness will create ownership and buy-in to ease implementation.

Implementation of the strategic plan has been sequenced across five financial years and this will inform the development of the annual budgets and work plans. These will be reviewed to assess the level of alignment to the NDP III and OAG strategic plan. This will subsequently create avenues for monitoring, evaluation, and obtaining feedback for improvement.

Also, the strategic plan will be subjected to periodic reviews (annual, mid-term, and end-term) to assess the progress of implementation, identify and address emerging issues, and develop action logs to enhance performance. The mid and end-term evaluations will be conducted to take stock of achievements against the set objectives of the strategic plan.

9.0 PROJECT PROFILES

9.1 OAG Integrated Management Information System (IMIS)

The Office is in the process of implementing the IMIS with support from KfW through REAP. This involves automation and integration of all OAG business processes onto one IT platform. To date, project governance structures have been established, change management initiatives are ongoing and related procurement processes have been undertaken. The contract was signed in September 2020 and its implementation is expected to start in October 2020. The contract value is UGX 32,750,664,205.32 (VAT inclusive).

The OAG Integrated Management Information System (IMIS) shall deliver improvement to the Office by:

1. Improving operational delivery and achievement of defined strategic KPI's
2. Delivering better visibility around key departmental performance areas
3. Eliminating stand-alone operations across departmental business units
4. Achieving economies of scale & flexibility within the divisions
5. Curbing high costs related to resource acquisition & operational maintenance

Key Processes of the Office that the IMIS shall address

What modules / processes are going to be covered by the IMIS?

Audit Management: Ensure the alignment of the organisational mission and vision to improve the use of TeamMate and ensure integration with the EDMS for centralized storage of the working papers as well as the other modules of the IMIS. Ensure that there is a clear synergy with the Audit process and related supporting corporate processes.					
Strategy and Planning Management: Ensure the alignment of the organisational mission and vision with a comprehensive score carding process, strategic goals, initiatives and objectives of the office.	Finance and Accounting - Need for an integrated financial system with alignment to the long term strategic planning of OAG - The financial system shall interface with the GOU IFMS system for reporting by the OAG.	Human Capital Management - Improving capabilities and efficiencies around hire to retire processes - Improving automation around employee self-service and training - Key need for customized reporting and analytics	Procurement Management Process: To assist the OAG in archiving streamlined supplier management and the effective procurement processes in order to ensure compliance to legislation and regulation	Asset and Inventory Management: To obtain a system of record that can help the OAG in managing the assets and inventory so as to utilize the resources more efficiently and thus improve on the delivery of services to staff in both divisions.	
Governance, Risk and Compliance: Ensure the effective management of the OAG's risk profile and mitigation strategies across all areas of the OAG and its business	Electronic Document Management: - Improving process efficiency in document management and retrieval - Key requirements for access control to records and audit trail capability - EDMS system should have native ERP & Project systems	Business Intelligence and Reporting: Requirement to collect complete and comprehensive data for analyzing, in order to help the OAG management team make better strategic and operational business decisions	Project Performance Management: Key need to provide the office with a closed loop control system which deploys policy and strategy for all projects and programmers ran by the OAG	IT Infrastructure Management: - Need to replace all the equipment in the OAG Data Center as all existing equipment is End-Of-Life - Integration of OAG into the National Data Centre and Disaster Recovery site	

Implementation Phases:

For the IMIS, the contractor will provide consulting services covering the implementation of an SAP solution within the organization. The project will be implemented in five Phases of which Phase 0 is 4 months, Phase 1 is 8 months implementation and 2 months onsite Hyper care, Phase 2 is 6 months implementation and 2 months onsite hyper care, Phase 3 is 6 months implementation and 2 months onsite hyper care, Phase 4 is 5 months implementation and 2 months onsite hyper care. The total planned implementation period is 33 months.

9.2 Centre of Audit Excellence (Skills Enhancement Facility)

Project Goal

To strengthen institutional capacity through high-quality capacity building programmes and establishing an engineering and forensic laboratory to enhance the quality and value of audits.

Project Justification

The Government continues to invest heavily in infrastructure developments, e-governance, and extractives. This requires the OAG to attain adequate skills and tools to audit these priorities and emerging areas. Acquisition of such specialized skills is costly and the tools required need sufficient space for installation and on-site testing and analysis.

Specialised skills and tools are particularly essential in non-financial audits such as engineering, VFM, IT, forensic, and Oil and gas. Establishing a Center of Audit Excellence will be a strategic opportunity to develop the audit profession in the specialized areas mentioned above and in any new areas that may arise over time both within Uganda and beyond.

The proposed facility will have: Modern training rooms; an auditorium with a capacity of at least 200 persons; board rooms; modern conference hall; document archival center; a back-up IT data center; Kampala regional branch office; engineering laboratory; forensic laboratory; recreational facilities; a resource center and storage facilities

Project Cost and Implementation Period

The project is estimated to cost UGX 28.5 Bn and will be implemented over three years.

9.3 Development of A Shared Platform for Tracking Audit Recommendations

Brief Project Background and Justification

As part of the PFM reform strategy 2018-2023, the Government acknowledged the deficiencies regarding ascertaining the status of implementation of oversight recommendations.

In response to the above, Government prioritized the establishment of an integrated system to track the status of external and internal recommendations arising from audits and investigations. This is to be operated on a shared platform with input from OAG, PPDA, Parliament, Internal Auditor General, Ministry of Local Government, Accountant General, Ministry of Public Service, and Office of the Prime Minister.

Project Objectives

- a. To engage key stakeholders' instrumental for inducing implementation of audit recommendations to provide inputs for the establishment of the system
- b. To develop and implement a system for tracking all audit recommendations over five years.
- c. To build the capacity of those involved in manning the responsibility centers in the process of tracking the implementation of audit recommendations
- d. To provide timely feedback on the extent of implementation of audit recommendations to stakeholders for decision making.
- e. Designing a shared platform for tracking the status of implementation of recommendations for all participating Agencies.
- f. To assess impact of implemented audit recommendation over five years
- g. Customizing teammate software to capture recommendation implementation status as part of the routine audit process at the Accounting Officers' level.

Project financing and Implementation Period

This intervention is supported by REAP and will cost UGX 1.87Bn to develop an IT platform. The Office plans to invest UGX 306 million in other activities to effectively deliver the project. The project will be implemented over three years.

Annexes

1. Stakeholder analysis

NO.	STAKEHOLDER(S)	INTERESTS AND EXPECTATIONS	OPPORTUNITIES FOR OAG
Primary Stakeholders			
1	Parliament	- The Auditor-General audits and reports to Parliament following law to enable them to undertake their oversight function therefore they are interested in clear and timely audit reports and Treasury Memoranda. - In line with their Legislation role, their interest is a strong OAG mandate - OAG support to oversight function in scrutinizing public accountability and service delivery - Strong OAG governance, accountability, and transparency	- Increase the impact and visibility of the Office of Auditor General - Enhancing the National Audit Act 2008 and other enabling legislation - Feedback for improvement in audit processes - Providing resources to deliver the mandate, policy guidance, and recommendations for improving governance, accountability, and transparency.

NO.	STAKEHOLDER(S)	INTERESTS AND EXPECTATIONS	OPPORTUNITIES FOR OAG
2	Audit Entities	- Timely audit reports with Clear and practical audit recommendations as well as guidance on good accountability practices for improvement - Transparent, professional, and fair audit processes based on evidence	- Contribute to improvement in National accountability and service delivery - Auditee cooperation and implementation of audit recommendations hence increased OAG impact
3	Minister and Ministry of Finance, Planning, and Economic Development	- Improved accountability and transparency in government through the adoption of prudent financial practices, reporting, compliance with policies and service delivery - Accountability for resources received by OAG. - Timely warrants approval by Auditor General	- Strong partnership in improving public accountability, reporting, and service delivery - Improved OAG resources envelope
4	Minister of Ethics & Integrity	- Public sector transparency, accountability and OAG contribution in fighting against corruption - Compliance with OAG ethical codes of conduct	- Improve partnership in entrenching ethics and integrity in the public sector through audit reports - Effective and professional human resources
5	Ministers Responsible for Audited Entities (Local Government, other Ministries) and Local Government Finance Commission	- Improved transparency, accountability, and service delivery in all Ministries and Local Governments - Guide the creation of sound financial policies	Lead Ministries and Local Governments to institute sound accountability policies and follow up on audit recommendations and improve accountability.
6	Courts of Judicature, Inspector General of Government and Other Law enforcement agencies such as DPP, Uganda Police, etc.	- Evidence-based reports - Information to support their investigations and prosecutions - Collaboration with OAG in prevention and fight against corruption - Strong OAG mechanism to prevent and fight corruption internally	- Sensitization and awareness on the audit processes to ease adjudicating processes using audit reports - Strong partnership and collaboration in promoting better accountability and fight against corruption through follow up of audit recommendations - Support from IGG and other law enforcement agencies to strengthen the OAG mechanism to prevent and fight corruption.

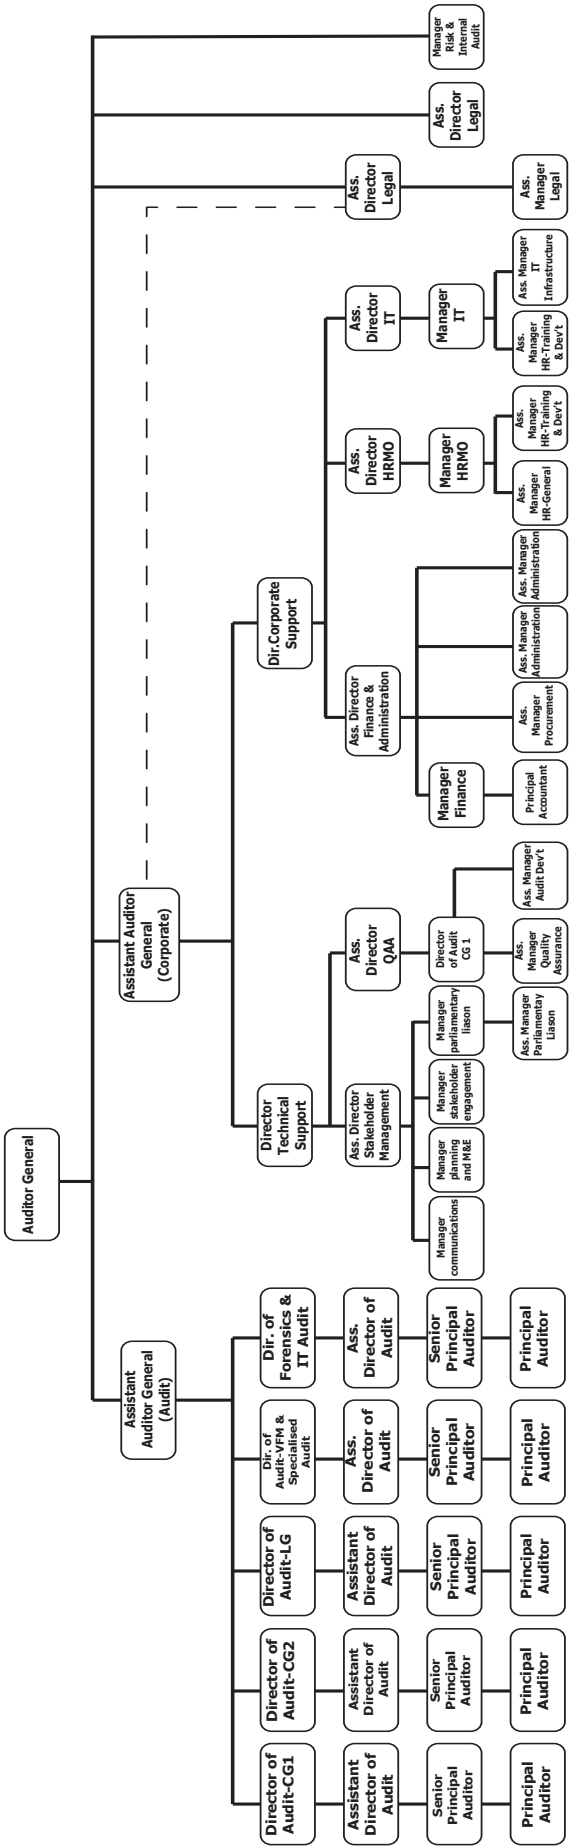

NO.	STAKEHOLDER(S)	INTERESTS AND EXPECTATIONS	OPPORTUNITIES FOR OAG
7	Local Government District Public Accounts Committee (LGDPAC) and Audit committees	- Timely audit reports (clear, user-friendly) and practical recommendations - Technical support to committees	Enhanced follow up of audit recommendations and feedback for improvement
Secondary Stakeholders			
8	Local government Political leaders	- Timely audit reports (clear, user-friendly) and practical recommendations - Guidance on the creation of sound financial policies - Transparency, accountability, and service delivery at grassroots	Enhanced follow up of audit recommendations and feedback for improvement
9	National Document Centre	Timely audit reports	Reference for research and dissemination of audit findings
10	Development Partners	- Improved transparency and accountability in the use of public resources including loans, grants, etc. - Improved international relations and reputation	- Influence the implementation of audit report recommendations and policy change to promote good accountability - Opportunities for Development Partners support
11	Civil Society Organisations	- Timely audit reports (clear, user-friendly) and practical recommendations - Partnership with OAG in promoting accountability	- Partnership in advocating for the implementation of audit recommendation - Lobbying for increased resources envelope
12	Media	- Dissemination of audit findings and public information about OAG - Foster demand for good governance, accountability, and transparency.	- Feedback and source of information for audit planning. - Promote OAG corporate image - Trigger follow up on audit recommendations
13	Academia	- Audit information (Audit reports) - Transfer of knowledge	- Strong Partnership for capacity building and professionalization - Research to aid improvements in auditing - Aiding improvement of audit and management of public resources

NO.	STAKEHOLDER(S)	INTERESTS AND EXPECTATIONS	OPPORTUNITIES FOR OAG
14	INTOSAI AFROSAI and Other SAIs	• Compliance with ISSAIs • Improved SAI Capacity through training and knowledge sharing to deliver their mandate • Improved audit reports, business processes, and reporting • Strengthening accountability and transparency of SAIs	• Building capacity of OAG to deliver its mandate • Guidance on implementation of ISSAIs • International exposure with other SAIs
15	Professional bodies	• Professional development and capacity building • Improved implementation of audit standards	• A strong partnership for capacity building and professionalization • Improve the capacity of audit firms (Local content)
16	International Organisations such as the UN, world bank, AU, etc.	• Improved Uganda governance, accountability, and transparency systems • Proper accountability for their funding support • Improved service delivery	• Improved International OAG image • Lobby to undertake audits in these International Organisations and earn foreign exchange • Opportunities for increased funding
17	URA	• Tax-related matters in OAG audit reports • OAG compliance with tax laws	• Follow up on tax audit-related recommendations • Capacity building of OAG staff in tax management and audit
18	Public (Citizens)	• Information on service delivery • Easy access to simple comprehensive and user-friendly audit information • Transparency, accountability, and good governance • Complaints and feedback mechanism • Corporate social responsibilities	• Creation of strong whistleblower relationship • Creation of demand for accountability hence follow up of audit reports and recommendations

NO.	STAKEHOLDER(S)	INTERESTS AND EXPECTATIONS	OPPORTUNITIES FOR OAG
19	Suppliers (Audit firms and other service providers)	• Transparency procurement processes • Fair business opportunities • Profile improvement of service providers	• Capacity building through attachments and conducting joint audits with international firms • Support private sector by building capacity for audit firms to deliver high-quality audits and services • Better services rendered
20	PPDA	• OAG Compliance to procurement laws, regulations, and guidelines • Collaboration and Knowledge sharing on procurement audits	• Enhance collaboration and improve capacity to audit procurements and place reliance on audits performed by PPDA hence harnessing synergies and improve efficiency • Improved procurement processes
21	Internal Audit	• Timely audit reports (Clear and user friendly)	• Establish a collaboration mechanism and improve capacity to undertake audits and place reliance on audits performed by Internal Audit hence harnessing synergies and improve efficiency
22	Attorney General/Solicitor General	• Compliance with legal requirements	• Consultations on governance-related legal matters

4. Interventions to Address Cross cutting issues

HIV/AIDS

Issue of concern:

- i. The office has staff living with HIV/AIDS whom it inclusively supports to live a healthy life and maintain productivity levels.
- ii. The office also plans to raise awareness levels on issues pertaining to HIV/AIDS.

Objective	Interventions	Indicative Budget (Bns of UGX)	Overall Outcome	Performance Indicators	Annualized Targets				
					FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25
To equitably and sustainably minimize the impact of HIV/AIDS on staff quality of life and productivity	Provision of timely access to required medical services for all staff including HIV positive staff and their families through the medical insurance scheme.	8.0	Enhanced staff satisfaction with medical services accessed through medical insurance scheme	Level of staff satisfaction with medical services accessed through medical insurance scheme (assessed through internal staff survey)	70% 1.6Bn	75% 1.6Bn	80% 1.6Bn	85% 1.6Bn	90% 1.6Bn
	Conduct HIV/AIDS awareness campaigns and enhance mainstreaming of HIV/AIDS considerations in OAG operations.	0.4	Enhanced staff awareness of issues concerning HIV/AIDS	Number of HIV/AIDS awareness campaigns	1 0.05Bn	1 0.05Bn	2 0.1Bn	2 0.1Bn	2 0.1Bn
		0	HIV/AIDS considerations mainstreamed.	Percentage of non-wage recurrent budget spent on HIV/AIDS mainstreaming activities	3%	3%	4%	4%	5%
		0.1		Number of OAG HIV/AIDS policy reviews	1 0.05Bn		1 0.05Bn		

Gender and Equity

Issue of concern:

- i. There is need to conduct audits targeting the creation of value to society in an indiscriminate manner.
- ii. The need to have balanced career growth for all staff regardless of sex, race, religious affiliation, background or disability.

Objective	Interventions	Indicative Budget (Bns of UGX)	Overall Outcome	Performance Indicators	Annualized Targets				
					FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25
To conduct audits focused on creating equitable and sustainable improvement in service delivery for all in line with SDG 5.	Mainstream gender and equity in all work plans and audit activities in line with the SDGs so as to promote effective service delivery and inclusive growth.	0.5	Enhanced value of audits to all groups.	Level of satisfaction with OAG audits among vulnerable and marginalized groups (assessed through biennial stakeholder perception survey)	70%		75%		80%
					0.15Bn		0.15Bn		0.2Bn
		0	Attainment of satisfactory rating on annual Gender and Equity Budget Compliance assessment from EOC.	Annual EOC Gender and Equity Budget compliance rating	70%	72%	75%	77%	80%
	Undertake gender audits focused on National gender policies, interventions and actions.	2.7	Impactful Gender – based audits undertaken.	Number of gender performance audits mapped onto SDGs undertaken	1	1	1	1	1
					0.4Bn	0.4Bn	0.4Bn	0.7Bn	0.8Bn

To provide all – inclusive opportunities in terms of welfare and career growth for all staff.	Provide equitable, needs-based training to all staff.	7.5	Staff capacity enhanced inclusively.	Number of staff facilitated for training and capacity building activities (disaggregated by gender)	1.5Bn	1.5Bn	1.5Bn	1.5Bn	1.5Bn
	Conducting fair and transparent recruitment and promotions.	0.48	Effective, Fair and transparent recruitment and promotion procedures adopted and implemented.	Level of satisfaction of staff and applicants disaggregated by gender	60%	70%	75%	80%	85%
				Level of compliance to Standardized OAG Recruitment and Promotion procedures	50%	70%	80%	90%	100%
				Number of staff promoted and recruited disaggregated by Gender	15 0.08Bn	12 0.08Bn	12 0.1Bn	15 0.1Bn	20 0.12Bn
	Support activities of the OAG Women's forum.	1.05	OAG Women's Forum activities implemented effectively.	Percentage of Annual Women's Forum Work Plan implemented	70% 0.15Bn	75% 0.15Bn	80% 0.2Bn	85% 0.25Bn	90% 0.3Bn
	Annually assess the level of staff satisfaction disaggregated by gender.	0.5	Effective Human Resource Management.	Level of staff satisfaction disaggregated by Gender	75% 0.1Bn	78% 0.1Bn	80% 0.1Bn	82% 0.1Bn	85% 0.1Bn
	Establish a well – equipped Nursing Room at Audit House	1.5	Fully equipped Nursing room established at Audit House.	Timing of Nursing room completion				By end of June 2024 1.5Bn	

Environment

Issue of concern:

- i. Knowledge gaps among staff in matters pertaining to climate change, its effects and sustainable environmental conservation efforts.
- ii. Need to mainstream Environmental considerations in Audit activities and office work plans.

Objective	Interventions	Indicative Budget (Bns of UGX)	Overall Outcome	Performance Indicators	Annualized Targets				
					FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25
To enhance staff awareness on environmental issues pertaining to climate change and its effects.	Conduct Environmental awareness campaigns and sensitization sessions	0.25	Enhanced staff awareness of issues concerning Climate Change and Environmental Conservation.	Number of Environmental awareness campaigns undertaken	1 0.05Bn	1 0.05Bn	1 0.05Bn	1 0.05Bn	1 0.05Bn
To mainstream Environmental and Climate change considerations in our audit work as per SDGs 6, 13, 14 and 15.	Undertake environmental audits focused on SDGs, National Environmental policies, interventions and actions.	1.6	Impactful Environment audits undertaken with a view to sustainable environmental conservation.	Number of environmental audits mapped onto SDGs undertaken	1 0.2Bn	1 0.2Bn	1 0.3Bn	1 0.4Bn	1 0.5Bn
	Build staff capacity in Environmental – based audits so as to create impact.	0.8	Staff capacity built in undertaking Environmental – based audits	Number of Environmental – based Audit trainings undertaken	1 0.1Bn	1 0.1Bn	1 0.2Bn	1 0.2Bn	1 0.2Bn

	OAG participation in INTOSAI – WGEA Activities as a member of the working group	1.45	Effective OAG participation and contribution to the INTO-SAI – WGEA community.	Number of WGEA Forums/ Seminars attended	2 0.15Bn	2 0.15Bn	2 0.2Bn	3 0.45Bn	3 0.5Bn
--	---	------	--	--	-------------	-------------	------------	-------------	------------

Covid 19

Issue of concern:

- Increasing number of Covid cases and the rate at which the virus impacts on the health of individuals
- Operational disruptions related to restrictions arising from the Covid 19 pandemic
- Limited knowledge on the Virus and its broader impact on society.

Objective	Interventions	Indicative Budget (Bns of UGX)	Overall Outcome	Performance Indicators	Annualized Targets				
					FY 2020/21	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25
To minimize and mitigate the effects of Covid 19 on staff productivity and operations of the Office of the Auditor General.	Implement the OAG Covid 19 response plan	1.0	OAG Covid 19 response plan effectively implemented and adverse effects of Covid 19 mitigated.	Percentage of Covid 19 response plan implemented	60% 0.2Bn	70% 0.2Bn	80% 0.2Bn	90% 0.2Bn	95% 0.2Bn
	Undertake Office – wide vaccination exercises	0.11	OAG Staff vaccinated against serious Covid 19 infection.	Percentage of OAG Staff vaccinated	25% 0.05Bn	40% 0.01Bn	60% 0.01Bn	80% 0.02Bn	90% 0.02Bn

Conduct Covid 19 awareness campaigns and sensitization sessions	0.6	Enhanced staff awareness on issues pertaining to the Covid 19 pandemic and its management	Number of Covid 19 awareness campaigns undertaken	1 0.05Bn	2 0.1Bn	2 0.1Bn	1 0.05Bn	1 0.05Bn
			Number of lots of IEC materials relating to Covid 19 procured	1 0.05Bn	1 0.05Bn	1 0.05Bn	1 0.05Bn	1 0.05Bn
			Number of Quarterly guidance notices issued by Top management	4	4	4	4	4
Procurement and distribution of Personal Protective Equipment (PPE) to all staff at headquarters and branch offices.	0.35	PPE procured and distributed to all staff.	Number of lots of PPE procured and distributed	2 0.1Bn	2 0.1Bn	1 0.05Bn	1 0.05Bn	1 0.05Bn
Procurement and distribution of software licenses for mobile and remote operating IT solutions to enable business continuity.	2.5	OAG staff provided with business solutions that create an enabling IT environment to facilitate remote working	Percentage of OAG Staff with remote connectivity that enables mobile operations	80% 0.1Bn	85% 0.1Bn	90% 0.2Bn	95% 0.2Bn	100% 0.2Bn

5. OAG Strategic Outcomes

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Strategic objective 1: Enhance the relevance of audits for improved public transparency, accountability and service delivery										
Outcomes: Improved public transparency, accountability and service delivery										
Indicator: Number of policy change resulting from audit										
Baseline: Not available										
Target: 5 every year										
Indicator: Number of sanctions/prosecution arising from audit reports										
Baseline: Not available										
Target: 100 after 5 years										
Indicator: Trend of re-occurring cross-cutting audit issues										
Baseline: Not available										
Target: 35% reduction after 5 years										
Indicator: aggregate value of savings/recoveries resulting from audit										
Baseline: Not available										
Target: UGX. 450Bn										
Indicator 1: Level of stakeholder satisfaction with OAG work										
Baseline: 73.6										
Target: 85%										
Specific objective 1.1: Undertake high quality audit targeting service delivery through professional approaches	High quality audits	Level of compliance with ISSAIs	64.3%	76%	68%	70%	72%	74%	76%	Compliance assessment report(s)
		% of audit recommendation implemented.	24 % ⁶	60%	30%	35%	40%	50%	60%	Annual performance report

⁶ Annual performance report 2019. Prior year audit recommendations from 108 entities

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Intervention 1.1.1: Effective overall audit planning and scope management to optimize audit resources and undertake audits focused on value addition and service delivery	Increased audit scope coverage	% of audit scope (numbers) covered	14.21%	40%	10%	15%	20%	30%	40%	Performance reports and SORA results
		% of scope in terms of value audited (budget) MDAs/LGs- expenditure, revenues, Asset values.	NA	80%	20%	30%	40%	60%	80%	Performance report and SORA results
	Improved audit efficiency	Ratio of total value audited to OAG audit-direct expenditure ⁷	1:657 ⁸	1:750	1:670	1:690	1:710	1:730	1:750	OAG Annual performance report
Intervention 1.1.2: Review and implement audit approaches and reporting frameworks to promote efficiency and enhance value of audits	Effective audit methodologies	% compliance of methodologies to standards	NA	95%	95%	95%	95%	95%	95%	QA annual reports

⁷ Value audited will include entity budgets or assets audited, OAG audit-direct expenditure includes audit directorate expenditure and their employee costs (salaries, wages and allowances)

⁸ Reports and Consolidated Financial Statements of the Government of the Republic of Uganda for the FY 2018-2019 (Total expenditure), Consolidated Summary Statement of Financial Performance of Public Corporations and State Enterprises for the year ended 30th June 2019 (Net worth), Reports and Consolidated Financial Statements of Local Governments for the year ended 30th June 2019 (Total expenditure)

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Intervention 1.1.3: Improve audit quality management system	Improved audit processes	% level of compliance with ISSAIs	64.3%	76%	68%	70%	72%	74%	76%	Compliance assessment report(s)
		% level of overall implementation of QAC recommendations in a 5 year revolving cycle	27%	75%	35%	40%	50%	60%	75%	QA annual report
Intervention 1.1.4: Manage post audit activities to harness desired outcomes	Increased utilization and follow up of audit results	% of audit recommendations adopted by Oversight bodies		90%	65%	70%	80%	90%	90%	Annual performance report
		% of Oversight bodies recommendations implementation by Executive (Treasury memoranda)	25 % ⁹	45%	25%	30%	35%	40%	45%	Annual performance report
		% of audit recommendation implemented as measured from the integrated follow up system	0	60%	0	0	40%	50%	60%	System reports

⁹ Annual performance report 2019. Twenty entities under the health sector from Treasury Memoranda 2015. OAG has no influence on recommendation of parliament and implementation thereof. However, the office is in position of continuously collecting this data.

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Specific objective1.2: Conduct audits responding to stakeholder needs and emerging issues	Audits targeting stakeholders needs and emerging issues undertaken(Forensic audits, VFM, specialized, PSA and any others audits)	Number of Forensic audits, VFM, specialized PSA and any others audits undertaken	39	266	42	46	55	60	63	Annual Auditor Generals' report to parliament
		% level of stakeholder satisfaction with OAG products	30.9 % ¹⁰	50%		40%			50%	Stakeholder satisfaction survey
Intervention1.2.1: Enhance capacity in undertaking e-government system audits and use of BIG Data analytics.	Audits of e-government systems undertaken	Number of e- government system Audits undertaken	4	34	4	6	8	8	8	e-government system Audit reports and performance reports

Intervention 1.2.3: Enhance institutional capacity and undertake audits in emerging areas including government priorities. (E.g. extractives, infrastructure projects, revenue, PFM reforms, VFM PPP, ICT etc.)	Audits in emerging areas undertaken	Average % Level of implementation of emerging area Audit strategies	NA	80 %	40 %	50 %	60 %	70 %	80 %	QA reports

¹¹ The baseline on FY 2018/2019.

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Strategic objective 2: Enhance institutional capacity to effectively and efficiently deliver our mandate										
Outcomes: Improved efficiency and effectiveness of institution operations										
Indicator 1: Percentage of audit coverage										
Baseline: 14.21%										
Target: 40%										
Indicator 3: Government Annual Performance Rating										
Baseline(FY 2018/2019): 50%										
Target:90%										
Indicator 4: Annual NPA compliance rating										
Baseline:51.4%										
Target:85%										
Indicator 5: External Auditors opinion										
Baseline(FY 2018/19): Unqualified opinion										
Target: Unqualified opinion										
Specific Objective 2.1: To improve internal governance for enhanced compliance and robust risk management	Improved internal governance structures	% level of staff satisfaction	NA	80 %		70 %			80 %	Internal perception survey
Intervention 2.1.1: Strengthen OAG legal framework and compliance for effective corporate governance	Enhanced OAG legal framework	Number of legal litigation cases against AG and OAG	5	3	5	4	4	3	3	Performance reports

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Intervention 2.1.2: Strengthen internal controls and mitigation of risks for improved governance and compliance	Strong control environment	% level of internal audit recommendations implemented	100 %	100 %	100 %	100 %	100 %	100 %	100 %	Internal audit reports
Intervention 2.1.3: Improve performance management through robust Monitoring and Evaluation processes	Enhanced performance	% of planned strategic activities implemented	NA	98 %	80 %	85 %	90 %	95 %	98 %	Performance reports
		Number of Impact Evaluation reports	1	7	1	1	1	2	2	Impact assessment reports
Specific objective 2.2: Attract, develop and manage human resources to improve performance	Improved human resource capacity to deliver	% of staff satisfaction	NA	70 %		60 %			70 %	Perception survey
Intervention 2.2.1: Implement performance management system and instil a culture of excellence.	A robust performance management systems	% of staff with satisfactory performance assessed timely	NA	80 %		65 %	70 %	75 %	80 %	Staff performance report
Intervention 2.2.2: Implement a comprehensive capacity building programme to enhance Performance.	Improved office performance	% increase of staff with satisfactory performance	NA	90%		70%	75%	80%	90%	Staff performance report

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Intervention 2.2.3: Attract, retain and manage talent to strengthen office capacity in a dynamic environment	Effective Human resource management	% level of staff satisfaction	NA	70 %		60 %			70 %	Staff satisfaction survey report
Intervention 2.2.4: Implement appropriate Human Resources policies and structures to effectively manage staff	Effective policies and structures developed and implemented	% level of staff satisfaction with implementation of policies	NA	100 %	100 %	100 %	100 %	100 %	100 %	Staff satisfaction survey report
Intervention 2.2.5: Establish a system that enables the highest ethical and professional standards in all our work	Enhanced integrity of staff	Improved internal integrity rating	NA	100 %	60 %	70 %	80 %	90 %	95 %	Internal Integrity survey reports
Specific Objective 2.3: Enhance financial management and operational efficiency	Improved financial management and operational efficiency	Budget performance rating	81.34 %	95 %	85 %	90 %	95 %	95 %	95 %	Ministerial policy statement, Annual Financial statements
Intervention 2.3.1: Enhance transparency and efficacy of planning, budgeting and performance reporting	Timely and accurate prioritized plans and budget performance reports	Level of compliance with the budget timelines and performance reporting framework	100 %	100 %	100 %	100 %	100 %	100 %	100 %	Budget framework paper, Ministerial Policy statement, Performance reports

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Intervention 2.3.2: Efficient Financial management and timely reporting	Timely and accurate financial statements	% of unqualified opinions	100%	100%	100%	100%	100%	100%	100%	External Audit reports
		Average % level of implementation of external Audit recommendations	100%	100%	100%	100%	100%	100%	100%	External Audit report, Sub Committee on Finance and Budget minute extracts
Intervention 2.3.3: Improve efficiency and effectiveness of procurement and disposal processes to enhance compliance, value for money and transparency	efficient and effective procurement and disposal processes	Average % of supplier satisfaction(including audit firms)	NA	90%	65%	70%	75%	80%	90%	Perception survey
Intervention 2.3.4: Effective, efficient and sustainable construction and maintenance of all OAG premises	Suitable office accommodation	Staff perception	NA	85%		85%			85%	Perception survey
Intervention 2.3.5: Efficient acquisition and management of inventory, fleet and security	Cost effective fleet and inventory	% reduction of fleet average maintenance and inventory cost	NA	10%	2%	4%	6%	8%	10%	Periodic financial reports
	Office properties secured	% level of staff satisfaction	NA	90%	80%				90%	Perception survey

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Specific Objective 2.4: Improve IT as a business enabler through greater collaboration, resource optimization and innovation.	Improved support and automation of OAG business processes	% level of user satisfaction	NA	90%	75%	75%	80%	85%	90%	Perception survey
Intervention 2.4.1: Enhance information security and privacy to mitigate cyber risks	Secured IT information and infrastructure	% of security incidences resolved	NA	95%	60%	70%	80%	90%	95%	IT security reports
Intervention 2.4.2: Improve information management and analytics to support robust decision making.	Automated information management system implemented	% level of Staff satisfaction with the system(IMIS)	NA	80 %	0	0	0	75%	80%	Staff satisfaction survey report
Intervention 2.4.3: Ensure availability of IT services to support continuity of business processes	Un Interrupted IT support services	% of network uptime	85%	98 %	80 %	90 %	95 %	96 %	98 %	System reports
Intervention 2.4.4: Provide quality IT services responsive to business needs to improve efficiency and performance	Quality IT support services	% of staff satisfaction with IT support services	NA	90 %	75 %	75 %	80 %	85 %	90 %	Perception survey

Objectives	Result	Indicators	Baseline	Overall target	Annualized Targets					Means of Verification
					2024-25	2024-25	2024-25	2024-25	2024-25	
Specific Objective 2.5: Effective communication and stakeholder engagement to enhance utilization of audit reports, increase demand for accountability and OAG profile.	Increased demand for accountability	Improved stakeholder satisfaction	73.6%	80%		76%			80%	Perception survey
Intervention 2.5.1: Manage internal and external communication to promote transparency and enhance utilization of audit results	Improved OAG corporate image	% level of stakeholder satisfaction	73.6%	80%		76%			80%	Perception survey
Intervention 2.5.2: Strengthen collaboration with national and international stakeholders to enhance impact of our work	Collaboration with national and international stakeholders strengthened	% level Stakeholder satisfaction	73.6%	80%		76%			80%	Perception survey
Intervention 2.5.3: Support Parliamentary oversight scrutiny and feedback	OAG reports discussed	% of reports discussed by parliament	60%	100%	100%	100%	100%	100%	100%	Parliamentary liaison feedback

6. Detailed Result Matrix

	Activities	Output	Indicator	Base-line FY 2019/20	Target (2020/21, 2021/22, 2022/23, 2023/24, 2024/25)					Data col- lection method	Fre- quency	Resposi- ble centre	To be Consult- ed	Means of veri- fication	Associated risks		
					1	2	3	4	5								
Specific objective 1.1: Undertake high quality audit targeting service delivery through professional approaches																	
Intervention 1.1.1: Effective overall audit planning and scope management to optimize audit resources and undertake audits focused on impact and service delivery	1.1.1.1: Develop and implement a multi-year overall Audit strategy considering aspects such as increased stakeholder participation, SDGs, national priorities, service delivery and sustainability concerns	Multi-year Overall Audit strategy developed	Timing of strategy de- velopment	NA	Q3					Document review	Once	Responsible Director	AG, AAG/A and AAG/C	Multi- year Overall Audit strategy	Delays in imple- mentation strategy		
			%-age Level of im- plementa- tion of the strategy	NA	20%	40%	60%	80%	100%	Document review	Annual	Responsible Director	AG, AAG/A and AAG/C	Status reports	Inadequate tracking of implemen- tation

2.5.3.2: Manage engagement activities between Parliament and OAG	Engagements between Parliament and OAG managed	Number of engagements held	4	0	8	6	8	6	Document review	Annual	Head Parliamentary liaison	AAG/C and Director Technical Support	Sensitization reports	Inadequate funding
		%-age of feedback recommendations implemented	NA	0	70 %	75 %	80 %	80 %	Document review	Annual	Head Parliamentary liaison	AAG/C and Director Technical Support	Feedback reports, follow-up assessment report	challenges in follow up
		Number of PAC sessions supported	350	250	400	450	400	450	Document review	Annual	Head Parliamentary liaison	AAG/C and Director Technical Support	PAC session hearing notes/ report	Lack of control of PAC meetings
2.5.3.3: Provide technical support to parliament	Technical support to parliament provided	Number of briefs prepared	350	200	350	400	350	400	Document review	Annual	Head Parliamentary liaison	AAG/C and Director Technical Support	Technical briefs prepared	None
		Number of PAC reports produced with support from OAG	5	5	5	5	5	5	Document review	Annual	Head Parliamentary liaison	AAG/C and Director Technical Support	PAC reports	None

	Activities	Output	Indicator	Base-line FY 2019/20	Target (2020/21, 2021/22, 2022/23, 2023/24, 2024/25)					Data collection method	Frequency	Responsible centre	To be Consulted	Means of verification	Associated risks
					1	2	3	4	5						
	2.5.3.4: Enhance capacity for Parliamentary Liaison Department	Staff trained	Number of trainings	0	3	3	3	3	3	Document review	Annual	Head Parliamentary liaison	AAG/C and Director Technical Support	Training reports, training certificates	Inadequate funding

7. Stakeholder Roles and responsibilities

Roles and responsibilities of Key stakeholders in the implementation of the plan

No.	Stakeholder	Roles and responsibilities
External stakeholders		
1	Parliament	- Approve the budget required for the implementation of the plan - Following up the Auditor General's reports through its Oversight function.
2	Executive	Implementation of recommendations of Parliament arising from Auditor General's recommendations.
3	Minister and Ministry of Finance, Planning, and Economic Development	- In charge of releasing the approved funds to OAG for the successful implementation of the plan - Prepare Treasury Memoranda
4	Accounting Officers	They support the Auditor General in providing information for audit, implementing audit recommendations and providing feedback for continuous improvement.
5	Anticorruption Agencies- Courts of Judicature, Inspector General of Government, Statehouse Anticorruption Unit and Other Law enforcement agencies such as DPP, Uganda Police, etc.	- They are the main source of our forensic investigations. They use our forensic investigations to enhance their investigations. - These enhance usage of audit reports to support their investigations and prosecutions
6	Development Partners	- Provide both technical and financial support to OAG towards realisation of the strategic plan initiatives. - Influence and support Government in the implementation of audit recommendations
7	Civil Society Organisations	- Partnership in advocating for implementation of audit recommendation - Lobbying and advocating for increased resources envelope to enhance Accountability. - Influence citizen's demand for accountability in line with NDPIII.
8	Media	- Dissemination of audit findings and public information pertaining to OAG through all channels of media. - Feedback and source of information for audit planning.

9	INTOSAI, AFROSAI and Other SAIs	• Provide audit standards, capacity-building programs and peer quality assurance reviews to improve audit and add value to society.
10	Professional bodies	• Provide opportunities for professional development and capacity building through continuous professional Development (CPDs) • They provide support in regulating Private firms that undertakes audits on behalf of the Auditor General. • Provide Accounting certification programs for our staff
11	Public (Citizens)	• Through strong whistle blower relationship, they provide insight on audit risks and accountability red flags. • Creation of demand for accountability hence follow up of audit reports and recommendations
Internal structures		
1	Top Management committee	• Approve office regulations, policies, procedures, strategies and budgets. • Ensure management of organizational risks • Review business performance and ensure corrective actions. • Constitute OAG governance and ad hoc committees.
2	Human Resource Advisory Committee	• Advise the Auditor General on appointments and salary structure.
